Case Study

Challenge	Solution	Outcome
U.S. Fleet Forces Command faced gaps in visibility and coordination across multiple enterprise programs, making it difficult to synchronize priorities, manage resources, and ensure readiness at scale.	TQI deployed experienced portfolio managers to streamline governance processes, improve reporting, and develop decision-ready documentation. We aligned resources, clarified priorities, and established disciplined processes across program areas.	● Improved synchronization across enterprise programs. ● Increased visibility into resource allocation and readiness metrics ● Enhanced decision-making through actionable documentation ● Direct contribution to improved Fleet readiness

Our People & Culture

Our people are our strength. Guided by our values of Trust, Quality, and Innovation, we foster collaboration, accountability, and transparency. With more than half of our workforce made up of veterans, our team brings firsthand mission understanding and a deep commitment to national security.

Why It Matters

Federal programs without disciplined portfolio management face delays, cost overruns, and misaligned priorities. TQI ensures resources, investments, and stakeholders stay aligned with the mission, reducing risk, accelerating timelines, and enabling decision-makers to move forward with confidence.
