

nubi

These fabric ear pads give you the perfect mix of comfort and sound quality. The bass feels balanced and controlled, the mids stay clear and natural, and the highs sound open and airy without ever becoming harsh.

They're also super breathable, so your ears stay cool even during long listening sessions. The fabric feels soft to the touch, making them easy to wear for hours.

With these pads, the soundstage feels wide and natural, with great depth and accurate instrument placement. Details come through clearly across all ranges, while the moderate noise isolation keeps you connected to your surroundings.

	Bass (20–250Hz)	Middle (250Hz–2kHz)	High (2–20kHz)	Scene / Volume	Detailing	Sound Insulation	Comfort
FABRIC	Lightweight, controllable	Transparent, open	Moderately bright, airy	Very wide, open	A good, gentle attack	Minimum	Maximum, «breathable» effect
ECO-LEATHER	Deep, dense	Clear, moderately sharp	Emphasized, dense	Intimate, focused	Very clear, detailed articulation	Maximum	Medium, heat up quickly
VELOUR	Soft, warm	Cozy, smooth, harmonious	Soft, calm, clean	Wide, deep	Wide, deep	Medium	Very comfortable, pleasant to the touch
