

BETTY DALTON

M.Ed.

Betty Dalton is a longtime computer science educator and mentor bringing decades of experience helping students learn, grow, and navigate their academic journeys.

Location:

Arlington, Texas

Mentoring Strengths:

- Academic Success
- Time Management
- Stress or Anxiety Management
- Work-Life Balance
- Faith and Spiritual Growth
- Professional Development

What do you hope to contribute as a mentor?

I hope to become a friend with experience to share regarding life's challenges. In the process I would hope to identify areas needing support and guidance to bring about a positive result. These areas could include academic strategy, time or anxiety management, and life balance while exploring spiritual growth.

What special experiences do you have to contribute?

Besides years in academic, I have led volunteer organizations and currently lead a women's bible study group.

PROFESSIONAL BIO

Betty Dalton is a longtime educator and Assistant Professor of Computer Science at Tarrant County College with decades of experience investing in students and their academic development. Her career in education began as a high school teacher before she joined Tarrant County College, where she has served as an adjunct instructor, instructor, and assistant professor.

With a background spanning business, education, and computer science, Betty brings a wealth of experience from a career devoted to teaching and helping students succeed. As a mentor, she offers the perspective of a seasoned educator who understands the challenges of academic life and the importance of encouragement, perseverance, and continued growth throughout one's educational and professional journey.
