

DR. PHILLIP BISHOP

Ed.D.

Dr. Phillip Bishop is a Professor Emeritus, exercise physiologist, and longtime mentor helping students integrate faith, scholarship, and calling.

Location:

Northport, AL

Mentoring Strengths:

- Dissertation/Thesis Support
- Academic Success
- Time Management
- Work-Life Balance
- Faith and Spiritual Growth
- Professional Development

What do you hope to contribute as a mentor?

I mentored 52 Ph.D. dissertations and 29 Masters' theses, so have lots of experience.

What special experiences do you have to contribute?

200+ science pubs, 400+ science presentations. I LOVED being a Prof.

Personal Site

PROFESSIONAL BIO

Dr. Phil Bishop is Professor Emeritus of Exercise Physiology at the University of Alabama, where he spent more than three decades teaching, conducting research, and mentoring undergraduate and graduate students. A graduate of the U.S. Naval Academy and former U.S. Naval officer, Phil later earned his doctorate in exercise physiology from the University of Georgia and built a distinguished academic career in exercise science, research, and higher education.

Throughout his career, Phil has been passionate about helping students and faculty see their academic work as more than a profession—it can also be an opportunity to faithfully serve God and others. Through his involvement with Faculty Commons, he has mentored and discipled students and faculty and spoken across the United States and internationally about integrating Christian faith with academic and professional life.

As a mentor, Phil brings decades of experience navigating graduate education, research, publishing, faculty life, leadership, and the pressures of the academy. He especially enjoys helping others think intentionally about their calling, develop as scholars and leaders, and pursue professional excellence without losing sight of what matters most.
