Week 12							
Monthly (ongoing)							
Monthly (ongoing)							

PREVIEW

Escalation pathway

Mild/expected → document, standard guidance, continue monitoring

Unresolved/worsening → provider review, consider dose change

Serious adverse event (e.g., suspected pancreatiis, severe allergic reaction) → immediate provider contact, log in adverse event record, direct to urgent/emergency care as appropriate

For educational/operational support only; not legal or clinical advice.
Full kit available at providers.deliverxdfl.com
