CHOOSING WHAT TO BUY

Which A-Grade suits your market?

A-Grade covers products for very different markets. The label alone cannot tell you whether an offer fits yours.

Show us a product reference or tell us about your market.

At Everson, we review the offer against what you need. You do not need a finished specification to start.

We start with your customers' requirements.

Appearance	Finish, visible surfaces, and acceptable repairs.
Installation	Dimensions and tolerances, including furniture fit where relevant.
Acceptance checks	Reference samples, checking methods, and exceptions.

All described as

"A-Grade"

Budget ranges — Premium ranges

The label alone does not tell you where an offer sits.

These factory categories can all be sold as "A-Grade".

Terms and acceptance rules vary by factory.
