Partnering with Churches and Schools to Support Parents with Clarity, Confidence, and Grace

Gracebased exists to help ordinary parents raise extraordinary kids. We partner with churches, schools, and community organizations to provide practical tools, thoughtful formation, and relational support that helps parents treat their kids the way God treats his—with grace.

How We Partner

We believe the best support for families happens through collaboration with the organizations and ministries families are already part of. Rather than offering a single, rigid program, we work alongside your team to design experiences that serve your parents well—whether through one-time events, multi-week classes, or ongoing partnerships.

Offerings can be tailored for:

- Churches and ministries
- Christian schools and faith-based organizations
- Schools and community settings
