

## MISSION-READY FACILITY SUPPLIES

**Greystone Federal** supports government buyers with responsive sourcing of commercial off-the-shelf facility products. We translate solicitation requirements into clear, supplier-backed quotes and coordinate direct-to-destination fulfillment without carrying unnecessary inventory.

## Core competencies

- Solicitation-based sourcing for facility consumables, maintenance supplies and replacement products.
- Exact-match and brand-name-or-equal quote development against stated specifications and salient characteristics.
- Manufacturer and distributor coordination for availability, pack size, lead time, warranty and supporting documentation.
- Freight-aware pricing and direct shipment coordination to the destination named in the order.
- Order follow-through from quote acceptance through supplier confirmation, shipment tracking and delivery status.

## Why Greystone Federal

- **Requirements first.** We screen dimensions, grade, performance, quantity, packaging and delivery terms before submitting a quote.
- **Disciplined scope.** We focus on repeatable, commercially available products rather than complex service delivery.
- **Lean fulfillment.** Supplier-direct shipping supports competitive overhead while each order retains one point of accountability.
- **Clear risk communication.** Buyers receive direct visibility into supplier constraints, substitutions, lead times and freight assumptions.

**Best fit:** one-time or recurring purchases with defined specifications, quantities and delivery locations, including brand-name-or-equal and commercially available replacement products.

## Company data

## Operating approach

- Confirm fit and commercial availability.
- Verify supplier lead time and shipping terms.
- Address required country-of-origin, domestic-content or product documentation.
- Coordinate shipment and track delivery status.

## PRIMARY PRODUCT SCOPE

Our catalog is organized around practical facility needs. Final availability, lead time, compliance documentation and delivery pricing are confirmed for each solicitation.

### HVAC filtration

Pleated, fiberglass, bag and specialty filters in common sizes and MERV ratings; HVAC fan belts as related add-ons.

### Janitorial consumables

Nitrile gloves, trash liners, cleaning chemicals, paper products, mops, dust mop heads, microfiber products and floor-care pads.

### Spill control & safety

Absorbent pads, socks and spill kits; non-prescription safety glasses and practical facility safety supplies.

### Lighting & electrical

LED bulbs and tubes, portable lighting, power strips, surge protection and commercial extension cords.

### Water filtration

Drinking-water filter cartridges and replacement elements matched to stated performance and fit requirements.

### Facility MRO & shipping

Waste receptacles, locks, stretch wrap, packing tape, corrugated boxes and selected OEM-new toner products.

## Quality and compliance controls

- Quote only supplier-supported items that match the stated specification or an expressly permitted equivalent.
- Confirm availability, manufacturer or approved-source restrictions, pack size, lead time and freight before final pricing.
- Review country-of-origin, domestic-content, product-certification and warranty requirements when included in the solicitation.
- Do not substitute products or change key characteristics without buyer authorization.
- Maintain order visibility through supplier confirmation, tracking and delivery follow-up.

### NAICS codes

**423850** - Primary  
**423730** - HVAC equipment and supplies  
**423610** - Electrical apparatus and equipment  
**423710** - Hardware merchant wholesaling  
**424690** - Other chemical products

### Selected PSC alignment

**4130** Refrigeration / A/C components  
**4610** Water purification equipment  
**5340** Commercial hardware  
**5975 / 6150** Electrical supplies  
**6230 / 6240** Lighting products  
**7510 / 8115** Office supplies / boxes

**Sourcing beyond the listed categories:** If a requirement falls within commercially available facility consumables or maintenance supplies, Greystone Federal can evaluate the specifications and provide a bid/no-bid response.
