Booth #1516

\$185M

in fines spent by casinos and gambling in 2025

An ID cleared at the door
still costs you at the cage

The door asks if the ID is real. The cage asks whether to approve
the transaction. One doesn't answer the other.

VERIDOCs. BE CERTAIN.

24/7 U.S.-based support
and development

book a demo

Every station owns its decision. One record behind all of them.

← BEFORE THE FLOOR

02 Hotel check-in

A false ID enters the PMS and every downstream record inherits it.

01 Entrance

Minor/barred person reaches the floor, fine lands on the property.

03 Bar & club

Underage service at volume, with fines per offence.

ON THE FLOOR

06 Retail & sportsbook

A real ID, the wrong person, easily missed.

04 Player enrollment

Many counterfeits from same person. Costs add up.

05 Cage

Watchlist and Title 31 exposure at the highest-value transactions.

On every ID, authenticate, verify, run facial comparisons, checked against the fastest updating commercial fraud library.

► Secure transactions at every gate at your casino.

Runs at every station

- ▶ TrueAuthentication®
- ▶ TrueCompare®
- ▶ mDL

Runs after every scan

- ▶ TrueListCheck®
- ▶ TrueListReview®
- ▶ Document Imaging

Connects to your floor

- ▶ IGT
- ▶ Konami
- ▶ Light & Wonder
- ▶ Aristocrat

What makes it **complete**

Every station after the door needs a specific check to protect you from exposure.

Tick what you use today and we'll tell you about your exposure.
