

Business intelligence for everyone

Asprey BI consolidates information from across the Asprey Suite into a single source of truth, for everyone from operational management through to executive and Board reporting. Standard dashboards, self-service reporting and interactive analytics are all included, without the complexity, cost or licensing restrictions often associated with traditional BI solutions.

Key outcome

Complete organisational visibility through real-time insight, empowering better decisions.

Who it is for

Operational teams and their managers

See performance as it stands, explore trends and find where to step in.

People who build reports

With limited training, amend the standard dashboards and design their own.

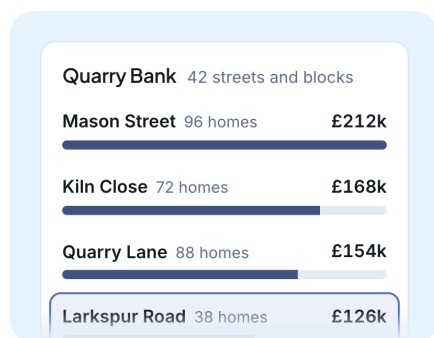

Senior management and the Board

Use a dedicated portal of interactive dashboards for key performance information.

Data owners

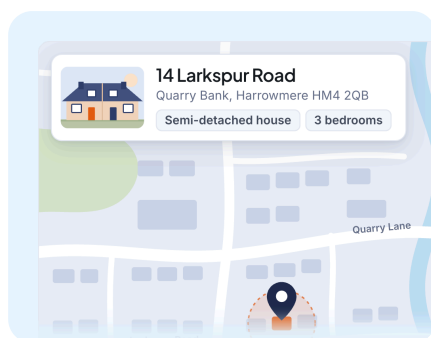

Use the data audit dashboards for ongoing data quality management.

What it does

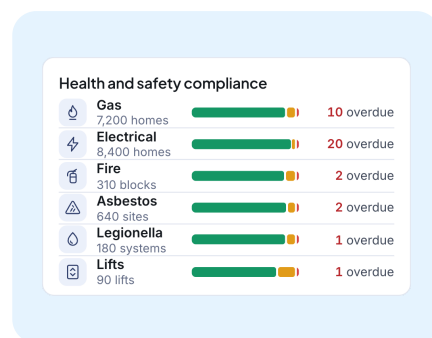

Interactive dashboards and visualisations

Drill down from portfolio to asset level.

360° asset intelligence

A 360° asset view with mapping, imagery and detailed asset information.

Executive and Board reporting

A dedicated executive and Board reporting portal.

Also in the module

- ✓ Self-service dashboard creation
- ✓ Real-time performance monitoring
- ✓ Data quality and audit management
- ✓ Data export and information sharing
- ✓ Operational and strategic reporting
- ✓ Snapshot and historical trend analysis
- ✓ Organisation-wide performance visibility

How it works

- Icon-driven switchboard to all operational functions
- Extensive library of standard dashboards and reports
- User-defined dashboards and reporting templates
- Data audit dashboards for data quality management
- Role-based access controls and information governance
- Charts and exports ready for reports and presentations
- From early adopters of Microsoft's BI technologies

What you gain

- ✓ Visibility of risk, performance and emerging trends
- ✓ Collaboration through shared access to trusted information
- ✓ Less administration effort and reporting overhead
- ✓ No reliance on multiple disconnected reporting tools
- ✓ Rapid return on investment without expensive BI licensing
- ✓ One source of truth for operational and strategic functions

Part of the Asprey Suite

The modules of the Asprey Suite share a single database, so one dashboard can combine asset, compliance and works information.

 APIs and integration	An expanding suite connects it to your wider IT estate.
 Asprey Advisory Services	Our BI consultants develop bespoke Power BI reports.
 Strategic Asset Management	The separate product for valuation and option appraisal.

Arrange a demonstration of Business Intelligence and Reporting

We can spend 30 minutes on the dashboards and reports alone, or give you a one-hour introduction to the whole Asprey Suite. Either way it is a product tour with someone who knows property management.
