

Asprey Mobile | **Mobile Working**

Accurate data and real-time updates from the field

Reliable asset and compliance management begins with accurate data collection. Asprey Mobile takes the Asprey Suite into the field, so surveyors, inspectors and operatives can collect validated data, complete inspections and update records on site, anywhere, anytime.

Key outcome

Collect better data faster and reduce the cost of maintaining asset intelligence.

Who it is for

Surveyors

Carry out a new survey, or validate the data already held.

Contractors and operatives

Update programmes and works from site.

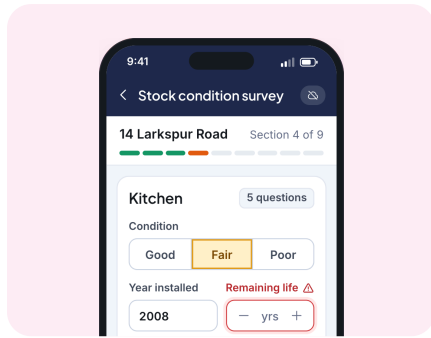

Compliance assessors and inspectors

Complete assessments and re-inspections, and update servicing.

Office teams

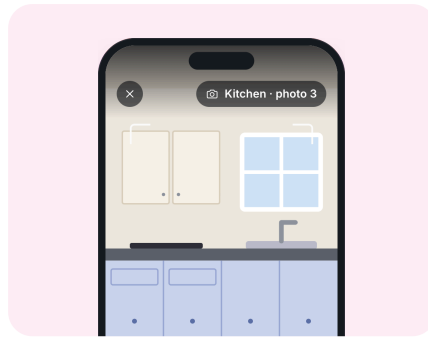

Receive data live from site, validate it and update the modules in bulk.

What it does

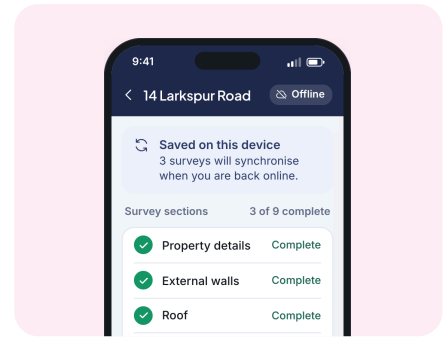

Built-in and bulk data validation

Mandatory questions that have been missed are highlighted.

In-survey photo capture and evidence collection

Several photographs are possible at each relevant question.

Offline working with automatic synchronisation

Assessments are saved to the device with no internet connection needed.

What it is used for

- ✓ Stock condition surveys
- ✓ Servicing programme updates
- ✓ Real-time servicing and works data management
- ✓ Compliance assessments and re-inspections: asbestos, fire safety, legionella, asset safety, HHSRS
- ✓ Ad-hoc surveys and inspections
- ✓ Planned works programme updates
- ✓ Field-based asset and compliance data collection

How it works

- Real-time data capture and synchronisation
- Simple, configurable survey and assessment design tools
- Support for both blank surveys and existing data reviews
- Live data transfer between field and office teams
- A mobile interface designed for operational users
- Standardised data collection, for consistency and quality
- On the Apple App Store and on Google Play

What you gain

- ✓ Simple, cost-effective solution for mobile working
- ✓ Surveys, inspections and updates from any location
- ✓ Less administration and shorter survey completion times
- ✓ Better data quality through structured validation
- ✓ More confidence in compliance and asset reporting
- ✓ Lower operational costs through streamlined processes
- ✓ A single, consistent approach to field data collection

Part of the Asprey Suite

Asprey Mobile is fully integrated with the Asprey Suite. Data collected on site transfers live to the office, where it is validated.

Operational Asset Management	Survey data updates the central repository.
Compliance Management	Assessments and updates arrive as they are completed.
Works & Contract Management	Works updates give the office progress in real time.

Arrange a demonstration of Asprey Mobile

We can spend 30 minutes on Asprey Mobile alone, or give you a one-hour introduction to the whole Asprey Suite. Either way it is a product tour with someone who knows property management.
