

THE BANDALONG BANDIT®

LITTER TRAP

Designed To Capture Floating Litter In Smaller Waterways

LIGHTWEIGHT

EASY TO INSTALL

SMALLER WATERWAYS

The **Bandalong Bandit Litter Trap** is a smaller model to its larger cousin the Bandalong Litter Trap™. Storm Water Systems has built and installed litter traps throughout the US for over 11 years with proven Bandalong technology.

Our goal was to make a solution for smaller creeks and streams filled with floating litter. The Bandit is designed to fit into smaller waterways. It can fit into the bed of a pickup truck, is lightweight, and easily installed. The Bandit body is 46" wide x 75" overall length.

ADVANTAGES

- Works 24/7/365
- Manual clean out
- For smaller waterways
- Lightweight and portable
- Can be installed by customer
- Various litter removal options
- Adaptable to site specific challenges
- Does not interfere with aquatic wildlife movement
- Will not restrict flow, affect hydrology or cause flooding
- Does not require mechanical assistance to collect floatables
