Set up a PACEX account

Apply for a new business account and prepare for access to the PACEX online shipping portal.

1 Start your application

On **pacex.com**, open **Customer onboarding** and select **Apply for an account**. Existing customers should use **Client login** instead.

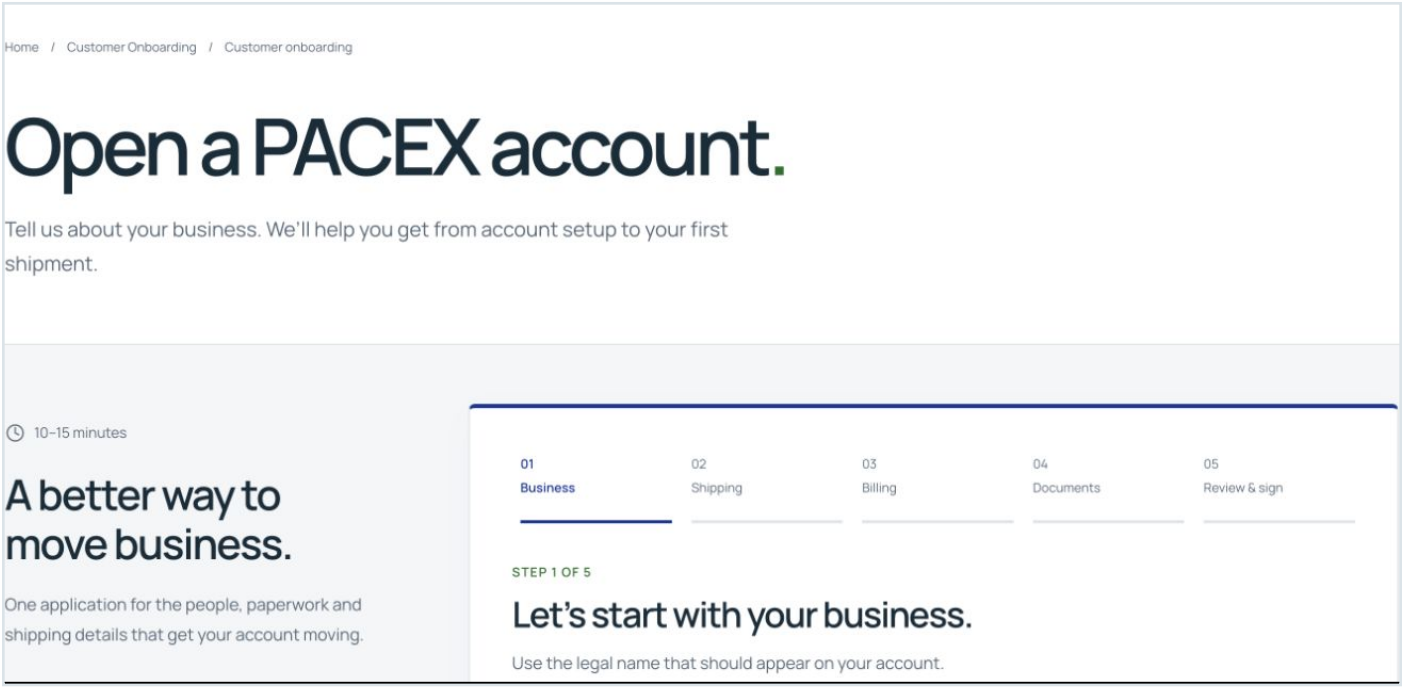

Have your legal company name, contact details, shipping needs, billing information and relevant supporting documents ready.

Need help? Call **1-888-837-2239**.

2 Complete the five steps

Work through **Business**, **Shipping**, **Billing**, **Documents**, and **Review & sign**. Complete required fields and check your details before submitting.

3 Wait for PACEX to confirm access

Submitting the application does not automatically activate an account. PACEX reviews the application and discusses the next steps with you.

Once PACEX confirms your portal access, sign in at **pacex.dsapp.io** using the login details provided. Contact PACEX if you have an existing account but cannot access it.

Need help? Call **1-888-837-2239**.
