THE CHALLENGE

Design the Joy every student deserves.

Each team creates a personalized Joy companion for the classroom of the future.

01 Create

Build Joy's AI agent in CareSphere: personality, mindset, core values, capabilities and voice.

02 Deploy

Put your agent on a physical Joy robot and test it live.

03 Design

Dress Joy in an outfit made with the fabric and decorations we provide.

04 Pitch

A 5-minute startup pitch: who Joy helps, why it matters, and how you'll bring it to schools and families.

WHY WE GATHER

Learn. Build. Lead.

AI for good
AI's story, where it helps or harms, and who decides.

Agentic AI, hands on
Write, test and deploy a real AI agent to a real robot.

Build together
Students of all abilities build alongside their families.

Think like a founder
Find a real need; shape, launch and market a product.

Lead with a positive mindset
Imagine the world you want and the leaders it needs.
