

Short-Term Gov/Credit

FIRM INFORMATION

Inception of Cumberland Advisors: 1973

Firm AUM: \$2.58B

Fixed Income AUM: \$1.97B

GIPS Compliance Verifier: ACA Group

GIPS Compliance Verification Period: January 1, 2012 - December 31, 2025

More Information: info@cumber.com

OBJECTIVE

Short maturity, high-quality fixed income invested for total return.

HIGHLIGHTS

Strategy Inception	12/1/1998
Strategy AUM	\$2,123,995
Composite Inception	8/1/2016
Composite AUM	\$2,123,995
Composite Account Minimum	\$250,000
Portfolio Manager(s)	John Mousseau, CFA, Ben Pease, Daniel Himelberger
Vehicle	SMA

COMPOSITE CHARACTERISTICS

Average Maturity (yrs.)	3.45
Modified Duration to Worst (yrs.)	3.12
Current Yield (%)	4.12
Average Credit	AA-
Average Coupon (%)	3.98
Yield to Worst (%)	5.12
Yield to Maturity (%)	5.12

MODIFIED DURATION TO WORST DISTRIBUTION (YEARS)

Duration is a measurement of the price sensitivity of a fixed-income investment to changes in interest rates.

CREDIT RATING BREAKDOWN

* Credit calculation combines Moody's and S&P ratings. If both exist, they're equally weighted and averaged; if only one exists, that rating is used. All ratings are shown on the S&P scale. Treasuries are included and treated as AA+.

SUPER SECTOR BREAKDOWN

Sector	Weight (%)
Government	53.64
Corporate	28.25
Municipal	17.49
Cash	0.62

* Pure gross returns are presented as supplemental information as the results for bundled fee accounts are not reduced by transaction costs.

¹ Partial period Aug 2016 to Dec 2016

² Partial period Jan 2026 to Sep 2026

Disclosures for Composite: Short-Term Gov/Credit

Cumberland Advisors ("Cumberland") is an Investment Advisor established in 1973 and registered with the United States Securities and Exchange Commission. Cumberland manages a variety of equity, taxable and tax-free fixed income, and balanced assets primarily for U.S. citizens in separately managed accounts.

Cumberland Advisors claims compliance with the Global Investment Performance Standards (GIPS®) and has prepared and presented this report in compliance with the GIPS standards. Cumberland Advisors has been independently verified for the period 01/01/2012 to 12/31/2025. The verification report is available upon request. A firm that claims compliance with the GIPS standards must establish policies and procedures for complying with all the applicable requirements of the GIPS standards. Verification provides assurance on whether the firm's policies and procedures related to composite and pooled fund maintenance, as well as the calculation, presentation, and distribution of performance, have been designed in compliance with the GIPS standards and have been implemented on a firm-wide basis. Verification does not provide assurance on the accuracy of any specific performance report. GIPS® is a registered trademark of CFA Institute. CFA Institute does not endorse or promote this organization, nor does it warrant the accuracy or quality of the content contained herein.

The Intermediate Gov/Credit Direct Composite includes all fee-paying, fully discretionary portfolios that have a direct, single-contract relationship with Cumberland and are managed to the Intermediate Gov/Credit strategy that are restricted from purchasing maturities longer than 11 years. The strategy seeks to design customized taxable fixed income portfolios for individuals and institutions. Portfolios are actively managed by strategically taking advantage of undervalued opportunities and purchasing high quality bonds. The composite also excludes accounts with a dual-contract relationship or that are charged a bundled fee. Investing in

securities involves a risk of loss that the investor should be prepared to bear. Bonds have the following known risks: credit, default, and interest rate risk. The minimum portfolio value for inclusion in the composite is \$250,000. The composite was created 1/2024.

The benchmark is the Bloomberg 1-5yr Gov/Credit Bond Index. The Bloomberg 1-5yr Gov/Credit Index is a broad-based benchmark that measures the non-securitized component of the US Aggregate Index. It includes investment grade, US dollar-denominated, fixed-rate Treasuries, government-related and corporate securities with 1 to 5 years to maturity.

Performance is expressed in U.S. dollars. Past performance is no guarantee of future results. Performance results are total returns and include the reinvestment of all income, including dividends. Policies for valuing investments, calculating performance, and preparing GIPS Reports are available upon request. The firm's list of composite descriptions is available upon request.

Equal-weighted standard deviation is a measure of the dispersion of the gross-of-fees returns for accounts included in the composite for the full period. Equal-weighted standard deviation is not presented for periods when the composite contained five or fewer accounts for the entire period as it is not statistically meaningful. The three-year annualized standard deviation is a measure of the variability of the gross-of-fees composite returns and benchmark returns over time.

Composite returns represent the asset-weighted average of the performance of all portfolios included in the composite. The composite gross-of-fees returns have been reduced by all actual transaction costs incurred but have not been reduced by investment management fees. Net-of-fees returns have been further reduced by a model management fee that represents the maximum potential management fee charged by Cumberland to accounts included in this

composite. Effective 07/2018, the model management fee is an annual rate of 0.525%, applied monthly. For prior periods, the model management fee applied was 0.75%, applied monthly. Actual fees may vary depending upon, among other things, the applicable fee schedule and portfolio size. The composite fee schedule is as follows: Fixed Income Portfolios Maximum Annual Fee Charged – 52.5 basis points (0.525%). Fees are negotiable and not all accounts included in the composite are charged the same rate.
