

# Patronscan

Building Trust. Shaping a Safer World.

[www.patronscan.com](http://www.patronscan.com)

# About us

**Since 2005**, Patronsca has been delivering [industry leading ID Verification solutions](#) across the United States, Canada, the United Kingdom, and Australia.

Founded to help venues balance exceptional customer service with compliance and safety, we have scanned **over 500 million IDs** across [bars, nightclubs, liquor stores, cannabis dispensaries, car dealerships, and more.](#)

# About us

Our technology creates safe environments and builds trustworthy relationships through intelligent ID validation.

20<sup>+</sup>

Years in Business

60<sup>+</sup>

States and Provinces

500M<sup>+</sup>

IDs Scanned

14,500<sup>+</sup>

ID Types Recognized

# The Problem

1.

## **Fake IDs**

Over 1 million fake IDs enter the US market every year. Modern counterfeits pass visual checks and put your license at risk.

2.

## **Problem Patrons**

Repeat offenders move freely between venues with no way to track prior incidents or share alerts across locations.

# The Problem

3.

## **Compliance and Fines**

A single sale to a minor can cost [thousands in fines, suspension or permanent loss of your liquor license](#).

4.

## **Liability and Chargebacks**

Without a scan record, you have no documentation to [defend against chargebacks, lawsuits or regulator audits](#).

# Guard+

- ✓ Forensic ID Scanner
- ✓ **Validates Age**, checks for **Expired IDs**, and catches **Fake IDs**
- ✓ Analyzes 8,500 data points to catch Fake IDs human eyes miss
- ✓ Live patron photo capture for chargebacks
- ✓ 14,500 ID and document types recognized
- ✓ Most used system for the **Patronscan Flag Network**
- ✓ Membership and Guestlist Management
- ✓ Demographic Reports

# Handheld

- ✓ Portable barcode ID Scanner
- ✓ **Validates Age** and checks for **Expired IDs**
- ✓ Great for mobility around the venue
- ✓ Live patron photo capture for chargebacks
- ✓ Wi-Fi Connectivity
- ✓ Connects to the **Patronscan Flag Network**
- ✓ Cellular Available

# How the Guard+ Works

## Forensic ID Scan

Insert ID into the flatbed scan area, and select scan patron on the screen.

## Catch Issues

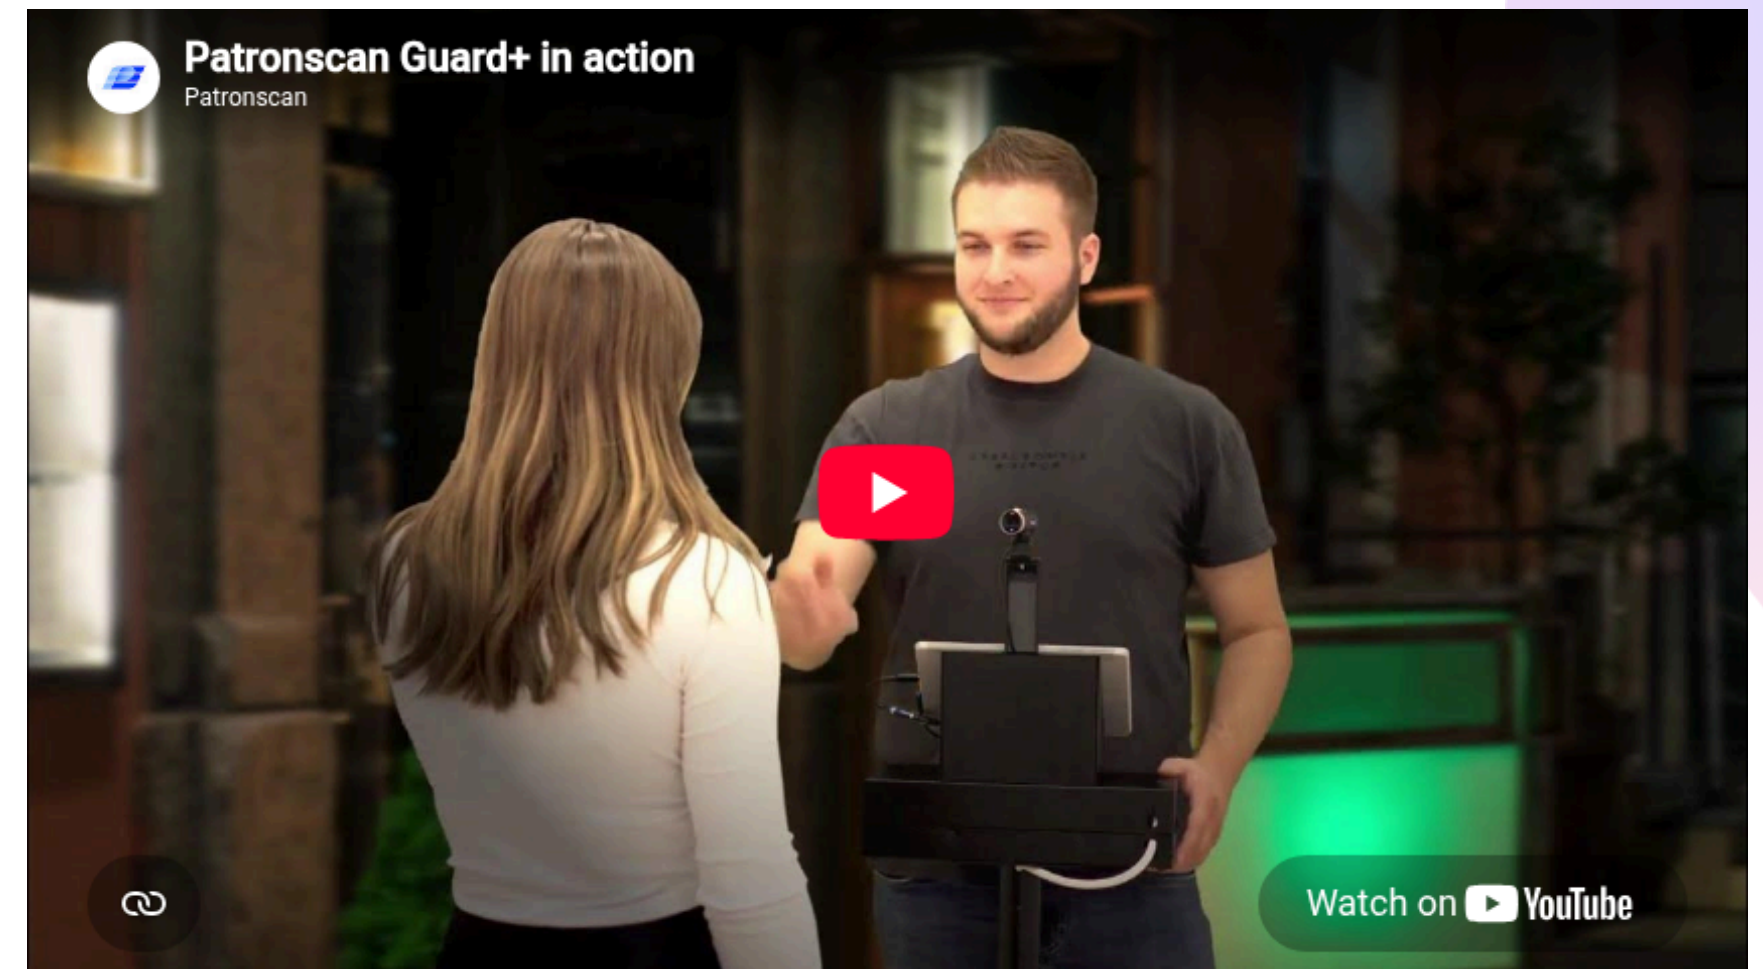

If an expired, underage, or fake ID is scanned, a prompt will show on the screen.

## Photo Capture

Live photo capture is automatically taken when scanning an ID. This assists with reporting chargebacks and more

## Demographics

Demographics, flags, and more can be seen on both the Guard+ or the Patronsan Web Admin on a separate device.

# How the Handheld Works

## Scan the Barcode

Press the yellow side buttons to scan the barcode on the back of an ID.

## Scan the ID Front

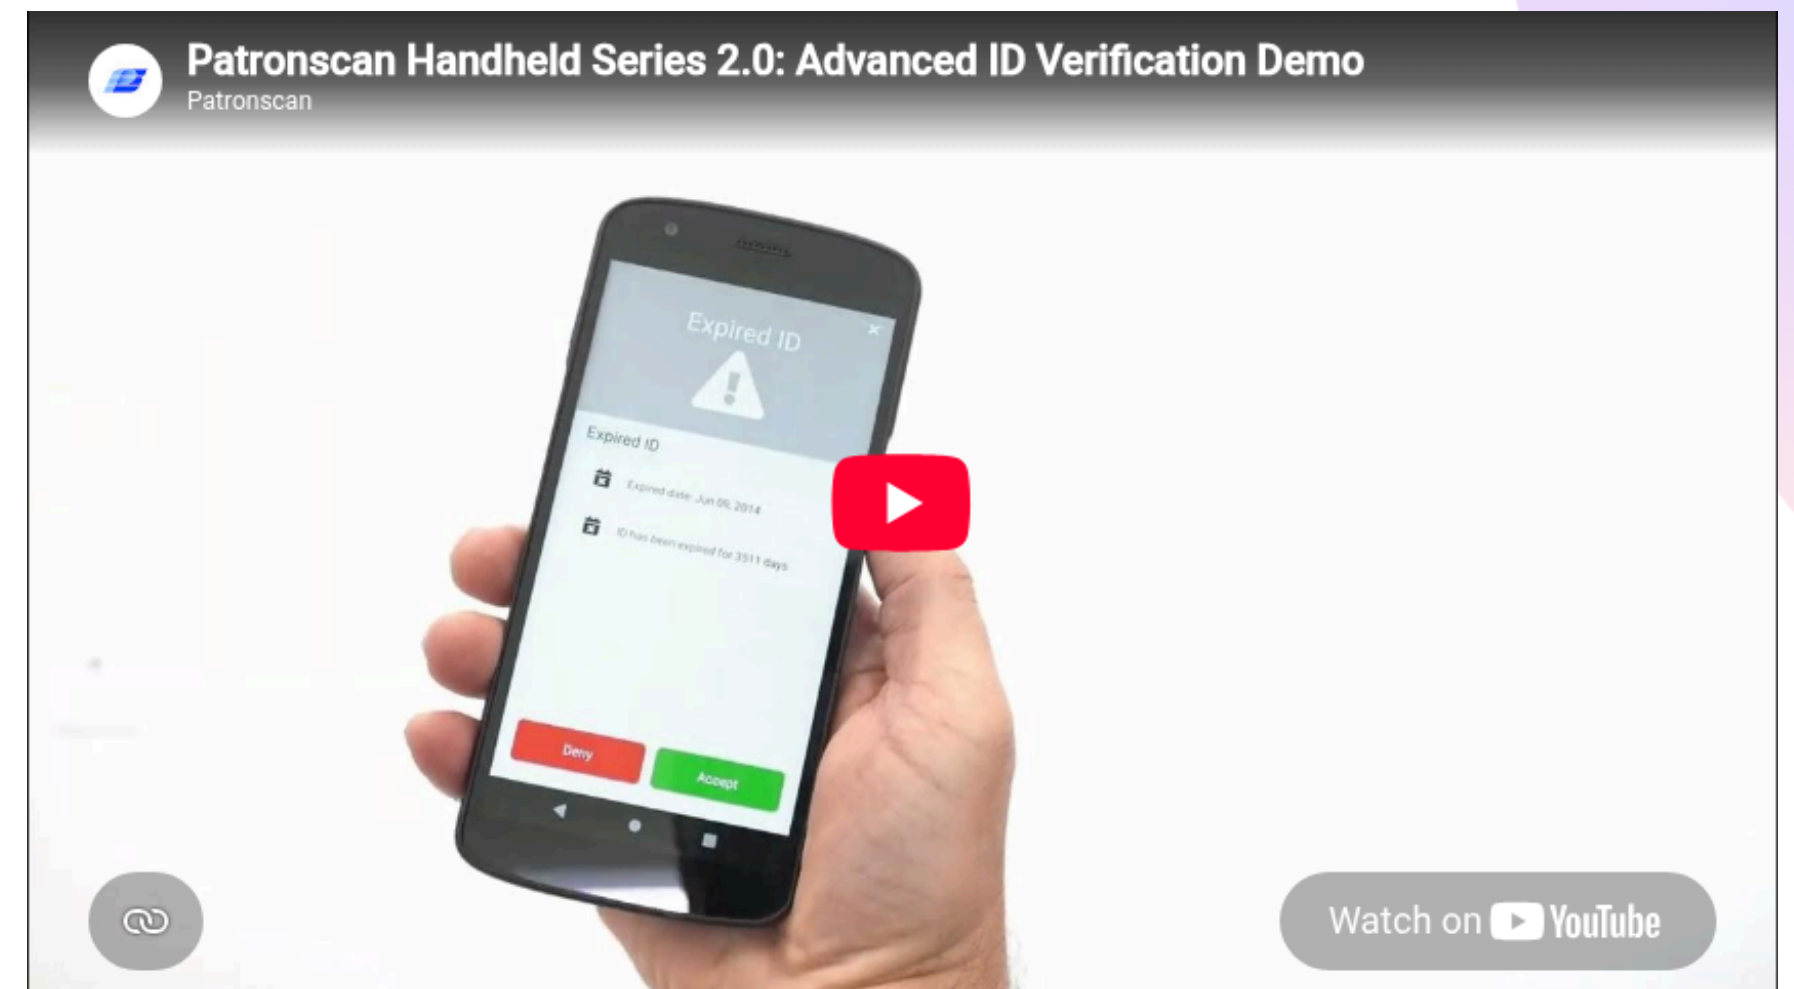

To scan the front of an ID, place the ID within the outline and press "Scan ID".

## Live Photo Capture

To take a photo of a customer, turn on the setting, then scan the ID. Live photo capture will show after scanning an ID.

## Charging and Utilize

USB-C Charging. Flashing red light indicates charging. Fully charged is green.

# The PatronsCan Flag Network

Our biggest differentiator, and one of the main reasons why **districts adopt PatronsCan at scale.**

1. A patron causes an incident and is publicly flagged. Any connected venue in North America will see this flag.
2. That flag is instantly added to our shared network of 60,000+ known problem patrons.
3. The next time the patron scans their ID at your venue or any participating venue, the flag will show on the ID Scanner.
4. Your staff sees incident details and can make an informed decision before they ever walk through the door.

**60,000+** Flagged Patrons

**Global** Flag Network Coverage

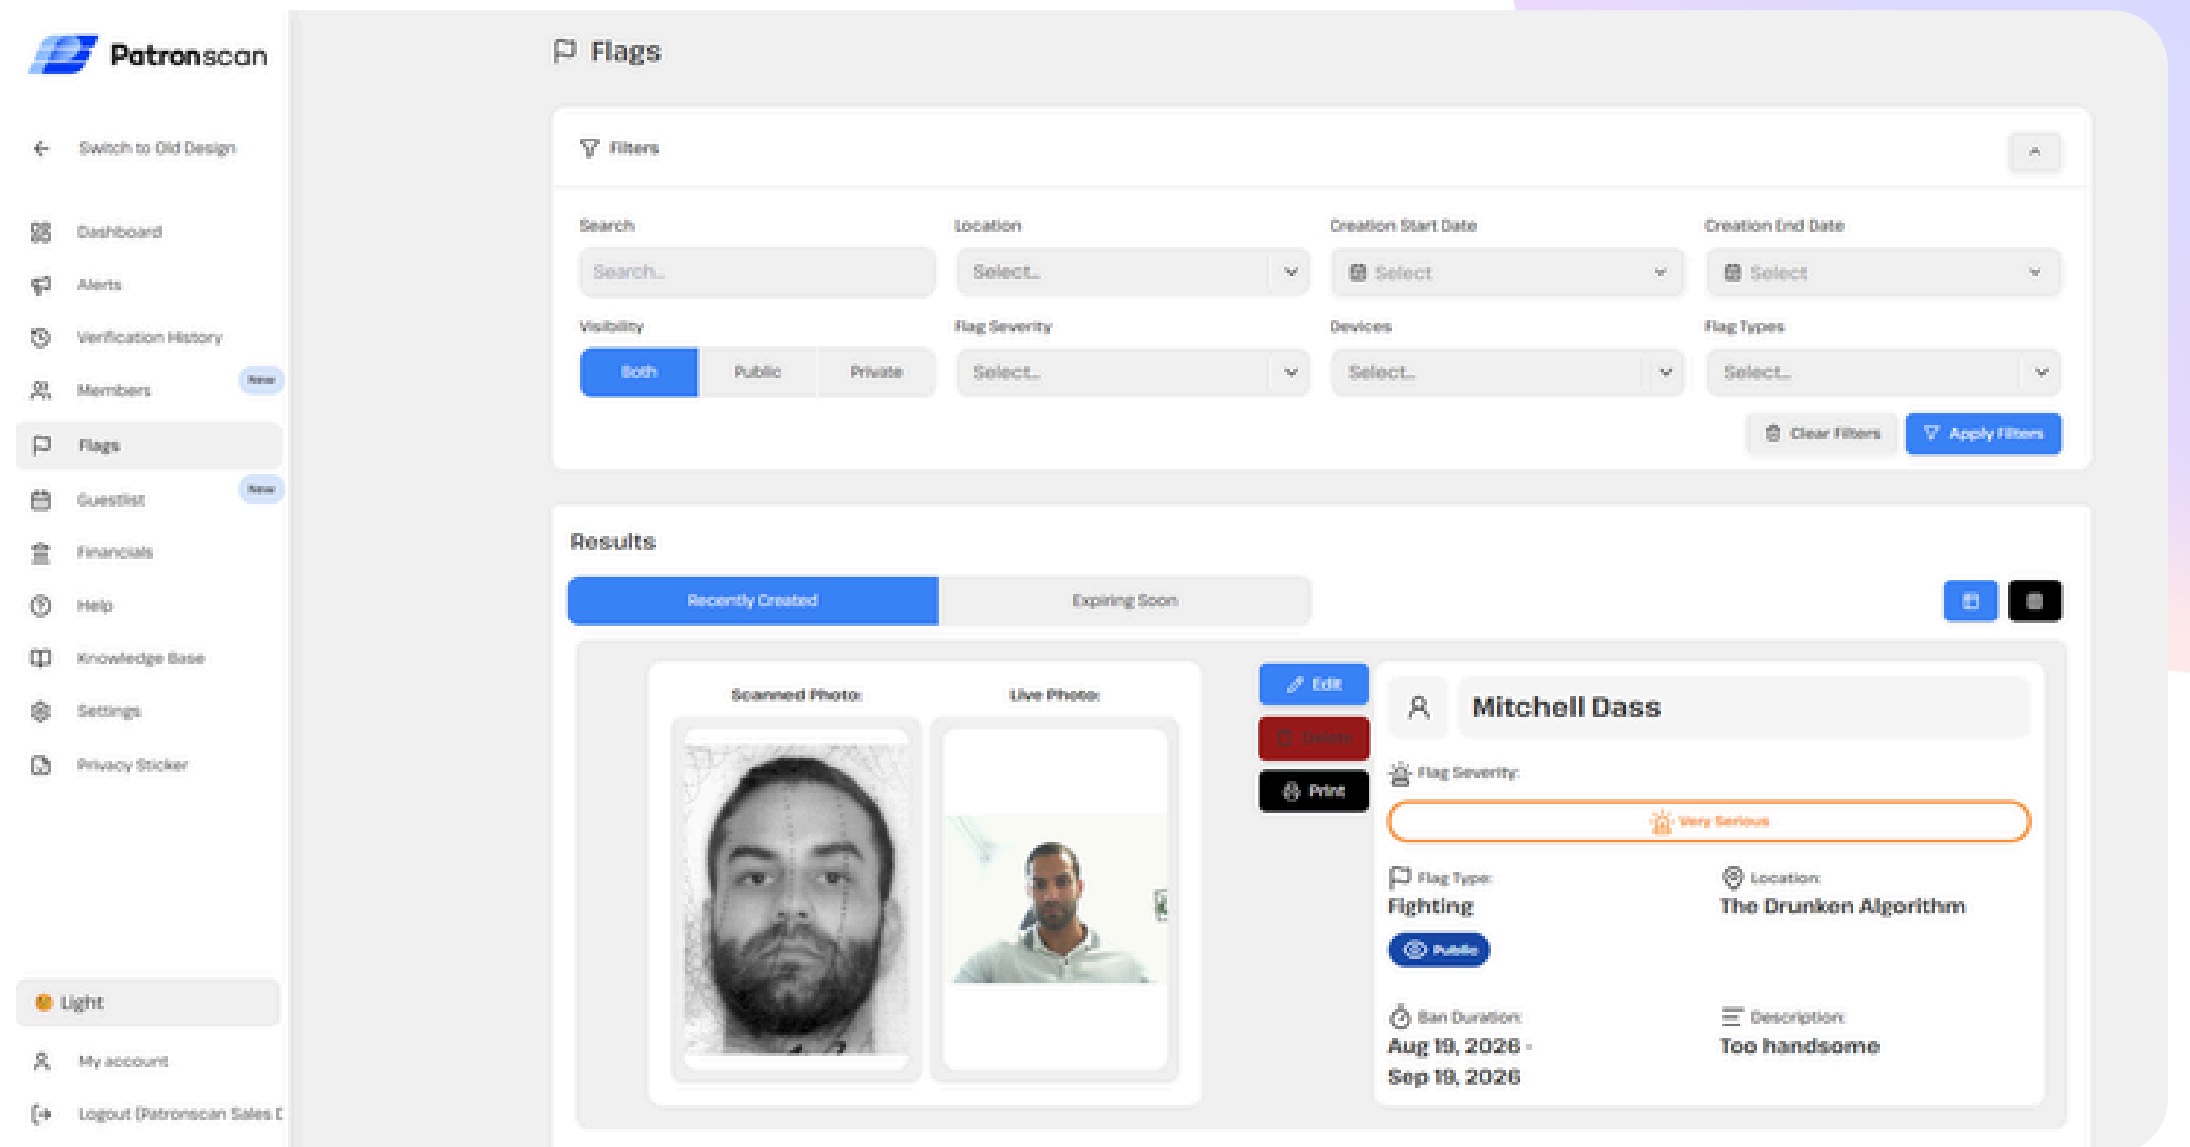

**Real-Time Alert** Speed

**Public & Private** Flag Options

**Import & Manage** your own list

# The PatronsScan Flag Network

# Web Admin Portal

The brain of your entire operation, accessible from anywhere, on any device.

## Scan History

Every scan timestamped and stored. Search any patron, any date, any location.\*

## Flag Management

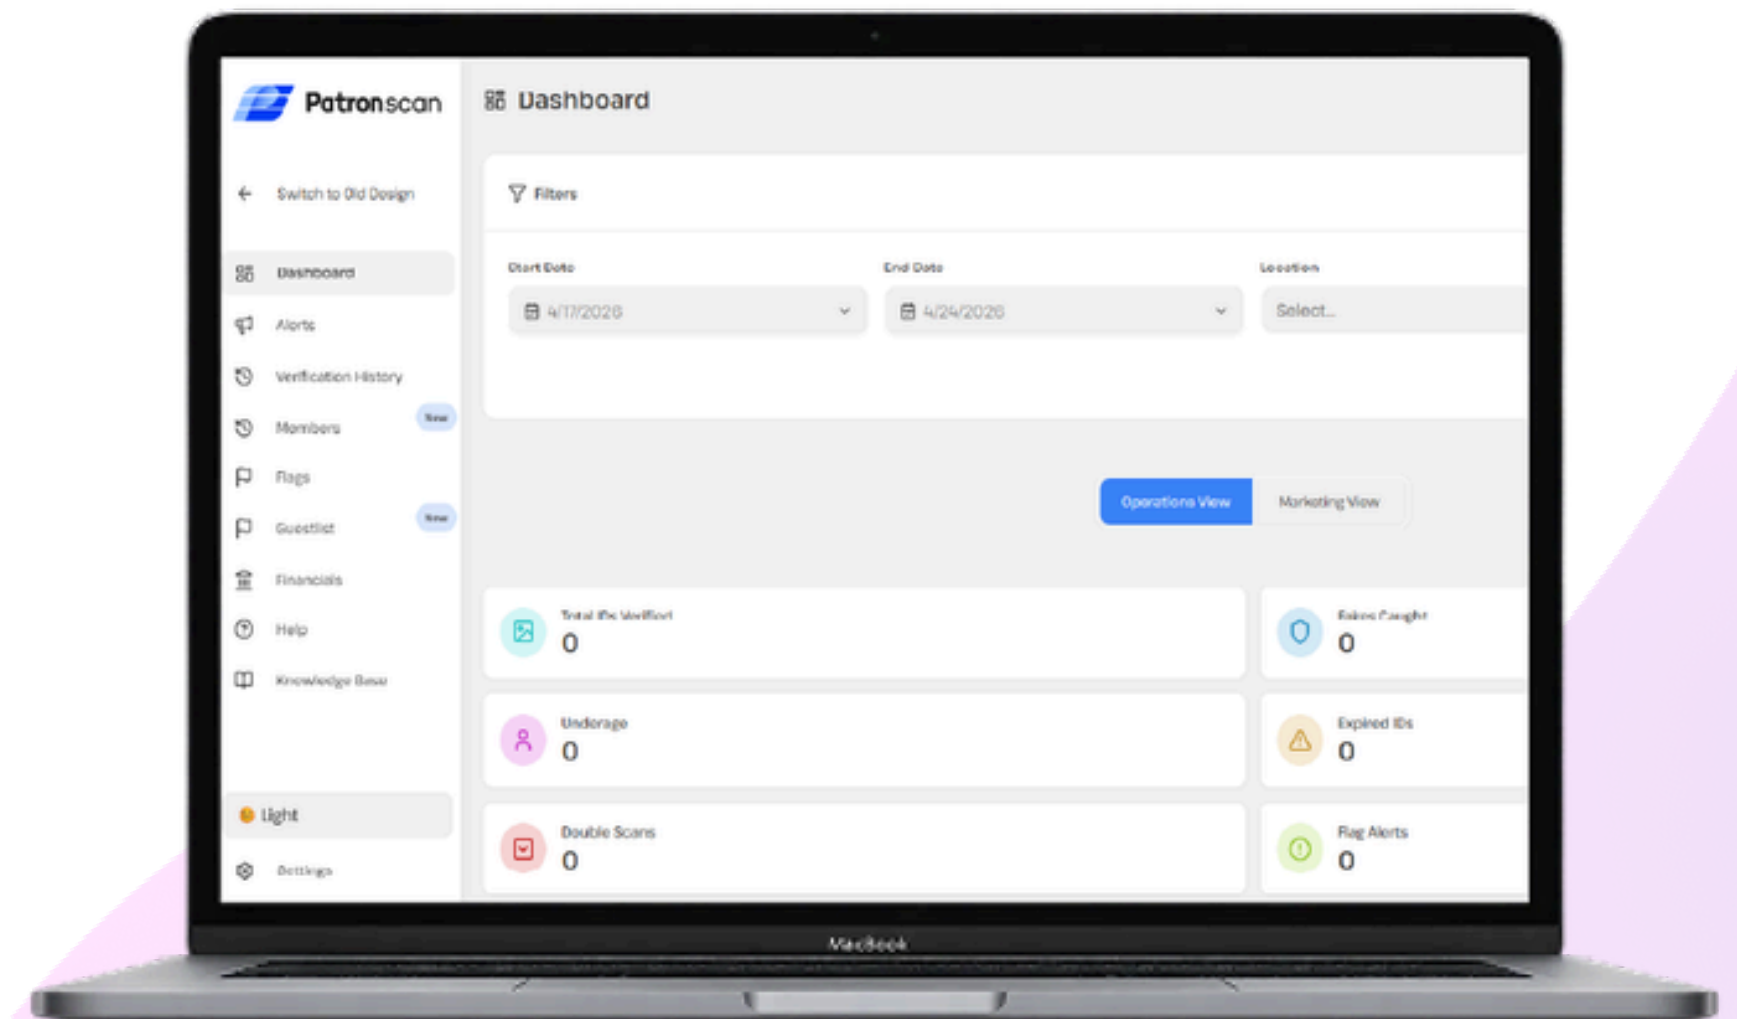

Add, review and manage public or private flags. Import your current list with ease.

## Demographic Reports

Run reports on patron age, gender, visit frequency and postal code.\*

## Multi-Location Dashboard

See every venue in your portfolio from one login. Ideal for groups and districts.

\*Data is deleted after a certain number of days, based on state, for privacy and security purposes, unless requested by Law Enforcement.

# Hardware Pricing

One-time purchase

**\$2,295 USD**  
per Guard+

**\$1,165 USD**  
per Handheld

\$30 a month  
per Handheld

\$40 a month  
per Guard+

Up to 2 replacements  
per year

# Real World Results

City-wide adoption creates outcomes that no single venue can achieve alone.

50+ Venues

## **Sacramento, California**

Dramatic reduction in violent incidents.  
Problem patrons stopped visiting the district entirely after the network launched.

Province-Wide

## **Manitoba, Canada**

Mandatory ID scanning across all government liquor stores. Significant reduction in theft and underage sales.

State Law

## **South Carolina, USA**

Bars open past midnight required to use ID scanners.  
Patrons can become the go-to compliance solution statewide.

District Rollout

## **Deep Ellum, Dallas TX**

Multi-venue network created a measurable, sustained shift in district-wide safety and patron behaviour.

# Why Now?

## **Staff Accountability**

Every scan is logged under a staff login. Managers can see who scanned what and when, reducing internal fraud and keeping your team sharp at the door.

## **Insurance Discounts**

Several insurers now offer premium reductions to venues running verified ID scanning programs. The system can pay for itself.

## **Chargeback & Liability Protection**

Every scan creates a time stamped record tied to a verified identity. When disputes or lawsuits arise, that audit trail is your best defence.

## **Network Effect**

The more venues in your area on PatronsCan, the stronger the flag network becomes for everyone. Early movers benefit most.

# The real question is, **why aren't you using Patronscan already?**

Try Patronscan with the **30-Day Money Back Guarantee**.
