INSIGHTS

Patronscan's Spotify Wrapped

Our Patronscan Wrapped is in, and the numbers are big. This year, our community scanned **45,331,487** IDs, and helped prevent underage entry, repeat incidents, and fraudulent IDs across thousands of venues.

These stats aren't just impressive - they represent real moments where your team helped keep patrons, staff, and communities safer. We're sharing these insights to help you spot trends, benchmark performance, and make smarter operational decisions as you head into the new year. Here's to building even safer spaces in 2026!

Updated Privacy Notice

The team at Patronscan is built on Safety and Trust, and that includes keeping our clients current with their privacy notifications. All venues are required to post a current Privacy Notice in a visible area for guests to reference.

To make this easy, we've added an Updated Privacy Notice feature to the [Web Admin Portal](#). You can log in anytime to confirm you're using the most current version and print a new notice for your venue.

We know your team is busy running a leading venue in your community, so if you'd prefer, our Privacy team can also help by sending you a new sticker. Reach out anytime through our support channel.
