Moopoo Stirrer

We designed the **Moopoo Stirrer** to deliver superior mixing performance while keeping the motor size low. Available in two lengths- a 0.6m option for pontoons and a 2.5m version for wall mounting in concrete sumps- it runs at 200 rpm with a large propeller and a stainless steel shaft. With no bearings in the effluent and a fully sealed gearbox, the Moopoo requires no maintenance, making it a reliable, hassle-free solution for your effluent system.

- 2 versions - 2.5m in length which is ideal for wall mounting, 0.6m in length which is perfect for pontoons
- Requires little to no service
- 3 blade prop
- Prop runs at 200 rpm
- Available in 1.1kW, 2.2kW & 4kW electric motors
- Easy installation
- Custom designed motor cover keeps the birds & weather out
- Motor cover is also a safe lifting point for easy removal
- Stainless steel shaft and fully galvanised
- **NZ designed and manufactured**
- **Simple, built to last**
- **12 month manufacturer guarantee**

Williams

Effluent Solutions

We needed a stirrer that was safe and simple to manage our 95-cube effluent sump, and the Williams 2.2kW Moopoo Stirrer has been fantastic. It replaced an underperforming unit, and we've been really impressed with how well it works for such a low power input. The long-shaft design means it's always working at the base of the sump, and we haven't had any crusting issues since installation."

- Stephen Purdy, Hamilton
