SPIDER WEB

Synthetic Rope

Williams Spider Web is a high-strength, lightweight synthetic rope designed as a smart alternative to traditional galvanised or stainless steel wire. It won't rust, is easier to handle, and is proven tough—used for years in demanding industries like fishing. With excellent visibility and no sharp frays, Spider Web is a safer, more practical choice for your effluent system.

- Rust-free for long-lasting performance
- Stronger than steel wire
- Highly visible in the paddock
- Lightweight – only 1/4 the weight of steel, which reduces drum overrun
- Easy to handle – no sharp or frayed wire
- 4mm & 5mm available at various lengths
- Cost-effective – cheaper than stainless, competitive with galvanised
- Proven durability – trusted in the fishing industry for years
- **NZ designed and manufactured**
- **Simple, built to last**
- **12 month manufacturer guarantee**

Williams

Effluent Solutions

"It's magic stuff, I have had it for over nine years now. It is a lot more bullet proof than the steel wire we have had in the past. I wouldn't go back.

-Peter Laurich, Ngatea
