

How to Join the Pharmacy Network

PharmPix permits participation in our pharmacy network by any pharmacy, including mail order, home infusion and specialty pharmacies, that is willing to accept our terms and conditions and is in compliance with federal and state laws.

A written agreement must be in place, and credentialing criteria must be completed in order to be included in the pharmacy network. PharmPix requires each pharmacy to meet the participation requirements, including but not limited to licensure, insurance and provider agreement requirements.

Credentialing and recredentialing initiatives are critical to ensure that participating pharmacies abide by the criteria established by PharmPix, as well as state and federal laws and regulations. All pharmacies must be approved by the Network Management Committee before becoming part of the PharmPix Provider Network, and must be recredentialed every two years to maintain active status in the network.

PharmPix needs to make certain that all pharmacies meet standards for quality, safety, cleanliness, patient confidentiality and access. PharmPix retains the absolute right to conduct a facility review any time a deficiency, a breach of standards of care, or a delivery issue is suspected.

If you are interested in becoming part of the PharmPix Pharmacy Provider Network, please send the Pharmacy Provider Network Participation Request Form to our Retail Network Contracting department at retailnetwork@pharmpix.com or by fax to 1 (866) 912-2810. A member of our Retail Network Contracting department will contact you in order to process your request.

If you have additional questions regarding the contracting process, please call us at **787-522-5252, ext. 169, 117 or 183.**
