

AI-POWERED ACQUISITION

AI agents that review and strengthen every package in the acquisition lifecycle, with findings tied to FAR/DFARS citations. Your KO remains final authority on every determination.

ACQUISITION AGENTS

REQUIREMENT → AWARD

01 • PRE-SOLICITATION

REQUIREMENT REVIEWER

Requirement packages checked for completeness and compliance before contracting, cutting iteration cycles that drive PALT.

PRE-SOLICITATION REVIEW

Market research, J&As, SOW/PWS, and IGCE reviewed for strength and audit defensibility.

02 • SOLICITATION

SOLICITATION REVIEW

Provision and clause compliance, with a readiness summary before release.

FOCI / VENDOR SCREEN

Foreign ownership, control, and supply-chain risk flagged before you engage a vendor.

SAM.GOV VALIDATION

Registration, exclusions, and reps & certs verified in seconds, as many times as the process demands.

03 • AWARD

TECHNICAL EVALUATION

Proposals scored against Section L/M and your requirement documents, with a recommended vendor.

PRE-AWARD REVIEW

Fair-and-reasonable memos, award synopses, and pre-award documentation checked for defensibility.

CONTRACT REVIEW

FAR and non-FAR awards reviewed for clause compliance and CLIN structure feasibility.

40%

PALT REDUCTION WITH THE U.S. AIR FORCE

ADDITIONAL EUDIA PRODUCT CAPABILITIES

ASSISTANT

Ask questions of your own data, the web, and gov sources, with citations pinned to the exact passage.

PROJECTS

Upload hundreds of thousands of documents, then query and run agents across the entire corpus.

EMBEDDED ADD-INS

Draft, edit, review, and fill forms inside Word and Outlook. Connect directly to your sources.
