SPARTNERS

by Servier and BioLabs

Coming from a partnership between Servier and BioLabs, Spartners is a **cutting-edge incubator** embedded in Servier's new R&D center in Paris-Saclay, managed by BioLabs' scientist staff and designed to empower **biotech startups** addressing unmet medical needs.

With access to fully equipped **state-of-the-art labs, modular workspaces, and a collaborative ecosystem**, startups can thrive in a space dedicated to innovation and interaction.

Driven by BioLabs' operational excellence and enhanced by Servier's scientific expertise, Spartners offers unparalleled opportunities for entrepreneurs to test, develop, and grow their ideas in a world-class R&D environment.

Spartners by Servier & BioLabs **IS CALLING FOR**

HUMAN HEALTH & BIOTECH STARTUPS looking for
equipped labs, advanced infrastructure, expert support,
and a collaborative environment to accelerate their innovation!

WHY APPLY NOW ?

Limited spots available
Don’t miss your chance to secure access to top-tier labs and a global network to drive your success

Program offering an unmatched value
Combining top-tier resources and expertise with the most competitive price point

In addition, startups developing solutions in the priority areas of Servier - and applying before Dec. 1st - will get a chance to win the Golden Ticket*: a free year's residency in the incubator

* Priority areas of Servier are Oncology, Neurology and Drug discovery platforms - Startups applying after the deadline for the Golden Ticket will still be considered to join the incubator!

WHY CHOOSE Spartners?

by Servier & BioLabs

State-of-the-art Infrastructure

The site offers over 110 lab benches splitted between shared open lab spaces, premium private labs as well as open space or private offices for business resources.

Strategic Networking Hub

Located in the innovation hub of Paris-Saclay, Spartners offers unparalleled opportunities to connect with leading researchers, academic institutes, industry experts, and fellow entrepreneurs.

Expert's Support

Supported by a staff of scientists, you will also benefit from Servier's expertise and an opening to its experimental platforms at no charge, as well as animal facilities (for which extra fees would apply).

NB: Servier and BioLabs do not have any ownership stakes or financial involvement in the startups incubated within Spartners.

MAXIMIZING THE SYNERGY OF THREE KEY PLAYERS

SERVIER

With a presence in over 70 countries, Servier is the **2nd largest pharmaceutical group in France**.
Supported by its open innovation policy, the group focuses on 4 therapeutics areas:
Oncology, Immuno-Inflammation, Neuroscience, and Cardiometabolism.

With the **Servier R&D Institute in Paris-Saclay**, the group has taken a new step in its innovation journey, convinced that new therapeutic solutions will come from the synergy between external actors and internal research!

+

biolabs

Founded in Boston, BioLabs is a global coworking lab network designed to **accelerate life science startups** by offering premium, fully equipped lab and scientific support in major biotech hubs.
With strategic partnerships and locations across the US, Europe, and Asia, BioLabs offers startups flexible terms, top amenities, and expert support, fostering innovation and collaboration within a dynamic community.

+

PARIS-SACLAY

Paris-Saclay is a world-class biotech ecosystem, representing **15% of French research.**
It hosts **65,000 students and 15,000 researchers**, making it a leading hub for scientific innovation.
The ecosystem hosts prestigious institutions such as INSERM, CNRS, and Institut Curie.
