PROFILE

I'm a passionate UI/UX Designer with 3+ years of experience, currently based in Vilnius, Lithuania. I bring an international background and a collaborative, detail-oriented approach to my work. I combine analytical thinking and creativity with a strong focus on user needs, usability, and accessibility.

EXPERIENCE

User Experience Designer

Interhyp Gruppe

April 2025 - March 2026 · Munich, Germany

- Responsible for UX/UI design of mortgage websites
- Rebuilt modules into responsive and flexible structures, enabling easier content creation and layout management within a CMS
- Contributed to the development and maintenance of design systems and guidelines
- Improved accessibility (A11Y) compliance across interfaces
- Conducted UX research and usability testing
- Collaborated closely with designers, developers and product owners
- Designed and prototyped a research-based UI/UX concept for an AI-driven mortgage self-service platform as part of my Bachelor's thesis

UI/UX Designer & Frontend Developer

Possehl Analytics

March 2021 - July 2023 · Augsburg, Germany

- Designed and developed landing pages and web platforms at a data analytics (IoT) B2B startup
- Focused on data-heavy dashboards and device monitoring interfaces
- Collaborated closely with designers, developers, product owners and stakeholders
