Moving research toward market.

Fabrication at the meeting point of living systems and secure data.

Build · Create what's next

WHO WE ARE

Tera Systems is a technology services company based in Norwalk, Connecticut. We support homes, businesses and property owners on site and remotely: one team for every place your technology lives, from the devices on your desk to your network, your buildings, your software and the parts you make.

THE CHALLENGE

- Research prototypes are hard to fabricate reliably.
- Biological and electronic components rarely work together out of the box.
- Data from experiments needs secure, structured handling.

OUR SOLUTION

01 Bioinks, biofluids and hydrogels
Formulation and fabrication for research and product development.

02 Hybrid microfluidic-bioelectronic systems
Fluid handling and electronics designed together.

03 3D/4D fabrication
Advanced fabrication for complex structures.

04 Secure data interfaces
Experiment and device data handled securely.

THE TERA SYSTEMS PLATFORM

HOW WE WORK

1

Free discovery call

A 30-minute conversation to understand your situation and goals. No cost, no obligation.

2

Plan and quote

A clear plan with the right service for your need. Fixed-price services can be booked online straight away.

3

Fix, connect or build

Our team delivers remotely or on site, then stays with you through the client portal.

HOW THIS SERVICE WORKS

Every project is assessed individually and priced after scoping. It starts with a free discovery call about your goals.

WHO IT'S FOR

- University and lab researchers
- Biotech start-ups
- R&D teams

WHY TERA SYSTEMS

One business day

We reach out within one business day.

Client portal

Tickets, billing and payment history in one place at portal.terasystems.io.

Remote or on site

Work is delivered remotely or in person, depending on the job.

Secure checkout

Book and pay online by card at terasystems.io; taxes are calculated at checkout.

Book your free discovery call

terasystems.io/contactus · "Discuss your project"

Current services and pricing: terasystems.io · Support: support@terasystems.io
Support hours: Monday to Friday, 9:00 to 17:00 New York time. The website chat is open any time.
