

MIGRATION, MODERNIZATION, LEGACY RETIREMENT

Transform your SAP landscape. Put AI to work.

Implement SAP S/4HANA Cloud, upgrade S/4HANA, migrate from ECC 6.0, or bring AI into your SAP processes, with architecture expertise and accelerators that have AI built in.

Implement

SAP S/4HANA Cloud

Upgrade

existing S/4HANA

Migrate

ECC 6.0 to a clean core

Integrate AI

into SAP processes

ECC 6.0 MAINSTREAM
MAINTENANCE ENDS

Dec 31, 2027

SAP talent gets scarcer as the deadline nears.

THREE PATHS

One question drives cost and risk: **what happens to your data?**

SAP Cloud ERP Private

Formerly RISE. S/4HANA, infrastructure and support in one.

SAP Cloud ERP

Public cloud with GROW. Standard and always current.

On-premise S/4HANA

Full control, with a clean core to protect upgrades.

OUR APPROACH Assess. Classify. Preserve. **Migrate. Retire.**

01

Assess

Landscape, volumes and dependencies, mapped with SAP LeanIX.

02

Classify

What moves, what is archived, what stays outside.

03

Preserve

History kept for reporting, audit and legal hold.

04

Migrate

Less data, clear ownership, clean core.

05

Retire

Legacy decommissioned, history still available.

PARTNERSHIP
Celeriti + JiVS

Architecture expertise backed by a proven retirement platform. Keep historical SAP and non-SAP data accessible while shrinking migration volumes.

- Move what the business needs
- Preserve what it must keep
- Retire what no longer needs to run

START HERE
Data Migration Readiness Assessment

- ECC 6.0 data and legacy landscape review
- Reporting, compliance and classification
- Migrate, archive, retain and retire plan
- JiVS fit, clean-core and AI readiness
- Executive decision brief and next steps

Lower cost

Retire what no longer needs to run.

Data integrity

Migrate less, cleanse more.

History kept

Reporting and audit, outside the core.

Less risk

Shorter cutover, simpler testing.

AI-ready

Clean core, trusted context.

Make your S/4HANA migration cleaner before it gets more expensive.

From strategy and design to go-live and ongoing support.
