Intelligent partnering and alliance management

Drop in decks, spreadsheets, contracts, and meeting minutes. Ask questions, automate tasks and get live dashboards in seconds.

allianceboard works inside Copilot Claude Gemini ChatGPT and on the web

Trusted by partnering and alliance leaders

Jazz Pharmaceuticals · Boehringer Ingelheim · novo · EXELIXIS · CHUGAI

Spreadsheets can't keep up. Generic AI doesn't know your deals.

Scattered information

Data lives in decks, inboxes, trackers and legacy systems. AI working from fragments hallucinates.

Expert time on busywork

Data entry, chasing updates and rebuilding the same reports eat the hours judgment needs.

Missed value

Deals slip, risks surface late and decisions stall, while the value teams do create goes unseen.

Drive success at every stage of the partnering lifecycle

Design your agents and workflows on a purpose-built foundation

FOR SEARCH & EVALUATION

Screen more, miss less

Connect your data sources, drop in files and get structured targets, assets and contacts to review. See which ones deserve a second look based on your criteria.

Opportunities · Assets · Companies · Evaluations · Watchlists

FOR BUSINESS DEVELOPMENT

Close deals faster

Every deal keeps its full history, from first intro through diligence to term sheet. Agents draft summaries, add news and updates, flag stalled deals and prep your next review meeting.

Deal stages · Interactions · Due diligence · Term sheets · Decisions

FOR ALLIANCE MANAGEMENT

Run alliances that deliver

Goals, governance, obligations and risks are extracted from your contracts and minutes, so you can spot a goal at risk or a decision stalling before it delays the plan.

Milestones · Governance · Risks · Obligations · Meetings · Reports

Turn AI from a confident guesser into a useful advisor

A connected graph of your targets, deals, alliances, obligations, risks and decisions, with granular access control.

AI BUILT IN

Eliminate data entry, get instant answers

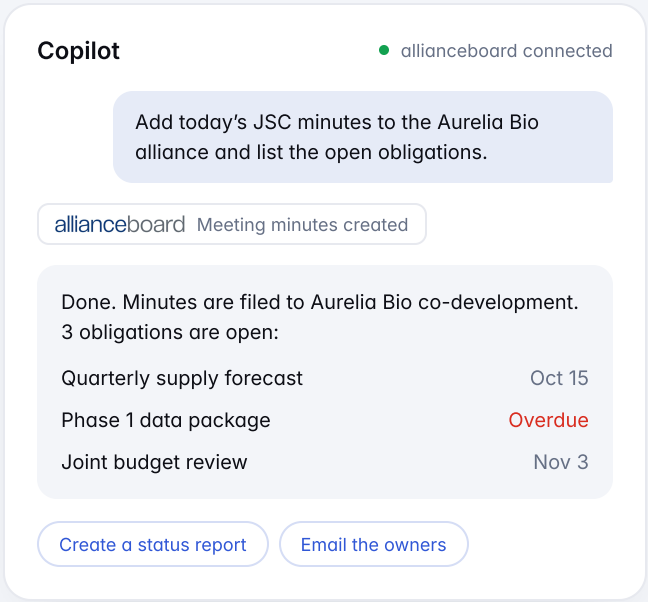

allianceboard's AI works inside your workflow, grounded in your own portfolio, so the record stays current without anyone retyping it.

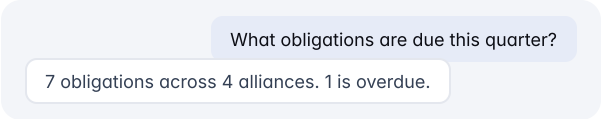

CHATBOT INTEGRATION

Work with allianceboard from your AI assistant

Connect allianceboard to Microsoft Copilot, Claude, Gemini, ChatGPT and other LLM chatbots. Add, update and view data and files in allianceboard directly from the chat, or use your allianceboard data to create reports, automations and anything else these tools can do.

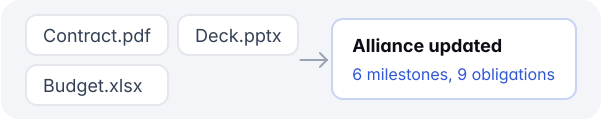

Add and update data · View data and files · Create reports · Build automations

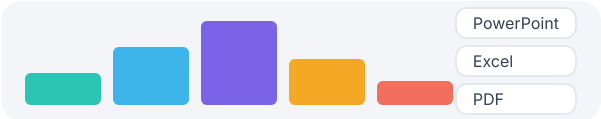

Embedded AI assistant

Ask questions and make updates across your whole portfolio: obligations due this quarter, risks by program, partner history. Get answers grounded in your data.

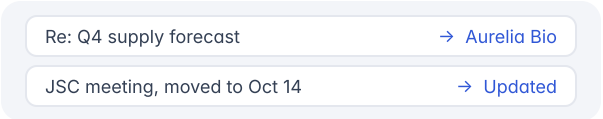

Document extraction

Drop in a PDF contract, PowerPoint, Excel sheet or Word document. allianceboard extracts the substance and creates or updates opportunities, assets, companies, alliances and meeting minutes. You review and confirm.

AI-generated dashboards and reports

Describe the view you need and get a live dashboard or a board-ready report, exportable to fully editable PowerPoint, Excel or PDF, or scheduled straight to stakeholders.

Email and calendar capture

Every partner email and meeting lands on the right deal or alliance and stays up to date, without leaving Outlook, Gmail or any other email client.

DRIVE ALLIANCE SUCCESS

Elevate your team's influence and impact

Foster alignment

Give your team and senior management full visibility across pipeline and portfolio.

Automate routine work

Spend less time gathering data, chasing stakeholders and preparing reports.

Engage with professionalism

Consistent information and processes for every partner and every committee.

Demonstrate value

Show the value of your team and your alliances on par with other critical functions.

Enterprise-grade trust and security

Your data stays yours, with granular access control.

Founding partner of the Association of Strategic Alliance Professionals. Clients gain ASAP membership and in-platform best practices.

ISO 27001 certified information security management, built for the confidentiality your deals demand.

GDPR compliant, with data handling that meets global privacy standards.

See your portfolio live in allianceboard

Bring a deck, a spreadsheet and your questions. We'll show you what intelligent partnering looks like with your own data.
