/ OMAVA Series 2026.

OMAVA, LLC is an international, audiovisual production company that creates, produces and distributes high-quality content for major international channels, such as National Geographic, A&E, Discovery, CANAL+, RTL, NIPPON TV, PLUTO TV, and HULU, among many others, reaching more than 100 countries.

An example of OMAVA's success is the worldwide broadcast of hit shows such as "To Catch a Smuggler" (Airport Security / Alerta Aeropuerto), "Stop! Border Control: Roma" and "Latin America Dangerous Borders." Each successful documentary series shows the efforts made by various border control and security forces in some of the world's most critical international airports: Rome, Madrid, Bogota, Lima, San Paulo and Buenos Aires.

As a result of the high-quality production and content, OMAVA, LLC has become an ally to the international security forces we have worked with.

Every year, they renew their confidence in our company, allowing us to produce new seasons of our most successful franchise, Airport Security, in locations where we had already taped in addition to new ones around the world. And beyond that, The United Nations (UN) and its Office on Drugs and Crime (UNODC) support our company.

01

/ Airport & Border Control.

Our border and airport control series focus on documenting the daily operations of security forces managing the flow of people and goods at airports, ports, and border checkpoints. These shows capture real-life scenarios involving inspections, the detection of contraband, and the scrutiny of suspicious travelers, offering a behind-the-scenes look at efforts to ensure safety and prevent illegal activities.
