Electric Articulated Chair

T-5 E

ELECTRIC CHAIR FOR BLOOD COLLECTION AND DONATION DIALYSIS

The **T-5 E** is an electric articulated medical chair designed for blood collection and donation, dialysis, and other procedures that require the patient to remain seated or reclined for extended periods.

Its electric adjustment system makes it easy to set the chair position, improving patient comfort and providing a comfortable, efficient working posture for the operator.

It can be set to different positions, including sitting, Semi-Fowler, horizontal, and Trendelenburg.

Key features

- Electric adjustment of chair angles
- Trendelenburg position
- Horizontal position / CPR function
- Semi-Fowler position
- Armrests for blood collection and vascular access
- Headrest and footrest
- IV pole
- Easy-to-clean eco-leather upholstery
- Powder-coated epoxy-polyester steel frame
- 4-inch wheels with brake
- Maximum capacity: 200 kg

Available positions

Sitting position

Semi-Fowler position

Horizontal / CPR position

Trendelenburg position (-12°)
