Manual Articulated Chair

T-5 M

MANUAL CHAIR FOR BLOOD COLLECTION AND DIALYSIS

The T-5 M is a manually adjusted articulated medical chair designed for blood collection and donation, dialysis, and other procedures that require the patient to remain seated or reclined for extended periods.

Its manual adjustment system allows the chair position to be set according to the needs of the patient and the procedure, providing comfort and an appropriate working posture for the operator.

It can be set to different positions, including sitting, Semi-Fowler, horizontal, and Trendelenburg.

Key features

- Manual adjustment of chair angles
- Trendelenburg position
- Horizontal position / CPR function
- Semi-Fowler position
- Armrests for blood collection and vascular access
- Headrest and footrest
- IV pole
- Easy-to-clean eco-leather upholstery
- Powder-coated epoxy-polyester steel frame
- 4-inch wheels with brake
- Maximum capacity: 200 kg

Available positions

Sitting position

Semi-Fowler position

CPR position / Horizontal

Trendelenburg position (-12°)
