swissnet Group wins IT centralization contract for the central IT service provider of Baden-Württemberg in Stuttgart

Berg, Switzerland – 30 April 2026 – The swissnet Group (ISIN: CH0451123589 – Ticker: MLBMD), a leading provider of ICT solutions and cloud-based network infrastructures, has won a contract for project management of the IT centralization of the central IT service provider for the state of Baden-Württemberg.

This client is responsible for driving the consolidation and modernization of the state administration's IT infrastructure. As part of this project, several locations will be consolidated at a new central site in Stuttgart.

swissnet will assume overall project management for the IT-side implementation in the course of the new construction. The scope of services includes in particular IT relocation project management as well as the coordination of all involved trades and partners in the context of the migration.

The project is planned for a duration of approximately 12 months and encompasses the structured planning, management, and execution of the IT integration into the new site infrastructure.

"By taking on the project management for such a pivotal initiative, we are underscoring our expertise in managing complex IT transformation and infrastructure projects in the public sector," says Boris Tölzel, VP Professional Services at swissnet Group.
