

Stoves with a story

The Skye E700 is made in Great Britain by Charnwood, a family business that have been designing and making wood burning stoves on the Isle of Wight for over 50 years. Charnwood are renowned for being the UK's leading stove manufacturer who have been at the forefront of stove design and cleaner burn innovation since 1972. In 2024 we were awarded the prestigious King's Award for Enterprise. Our company has a rich heritage in engineering and we manufacture a wide range of products including outdoor kitchens and architectural cladding. We are also principle makers of the iconic porcelain enamelled signage for the London Underground and the Paris Metro. Discover more about our company history and products at:

INTELLIGENT WOOD BURNING

Effortless, smarter burning

Simplifying the art of wood burning. Load, light and relax as the stove takes care of the rest.

The Skye E700 is a new intelligent stove that revolutionizes the way we burn wood. Load the stove, light the fire, close the door and let the stove do the rest. It is as simple as that.

This stove uses Charnwood I-Blu combustion intelligence a clever electronic system that continuously monitors the state of the fire and optimizes efficiency while reducing emissions through real-time adjustments.

Air is introduced in just the right amounts, in the right places, at exactly the right time to ensure a cleaner, highly efficient burn. Good for air quality and the environment, good for saving fuel and good for giving a crystal clear view of the fire.

Two color options: Black or Pewter.

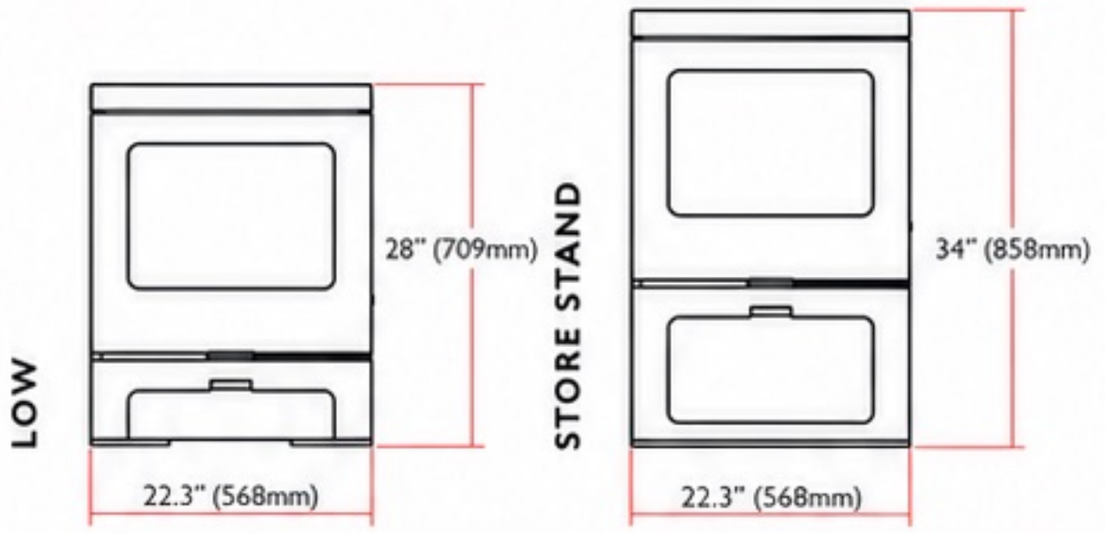

Intuitive smart E-Controller that runs your stove automatically. Patented I-Blu air delivery system for an ultra-clean automated burn.

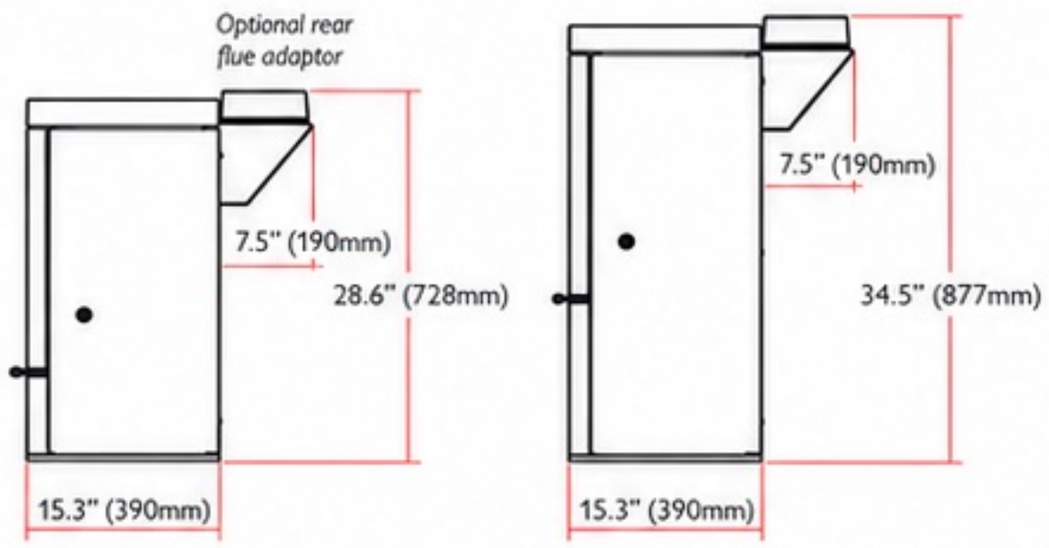

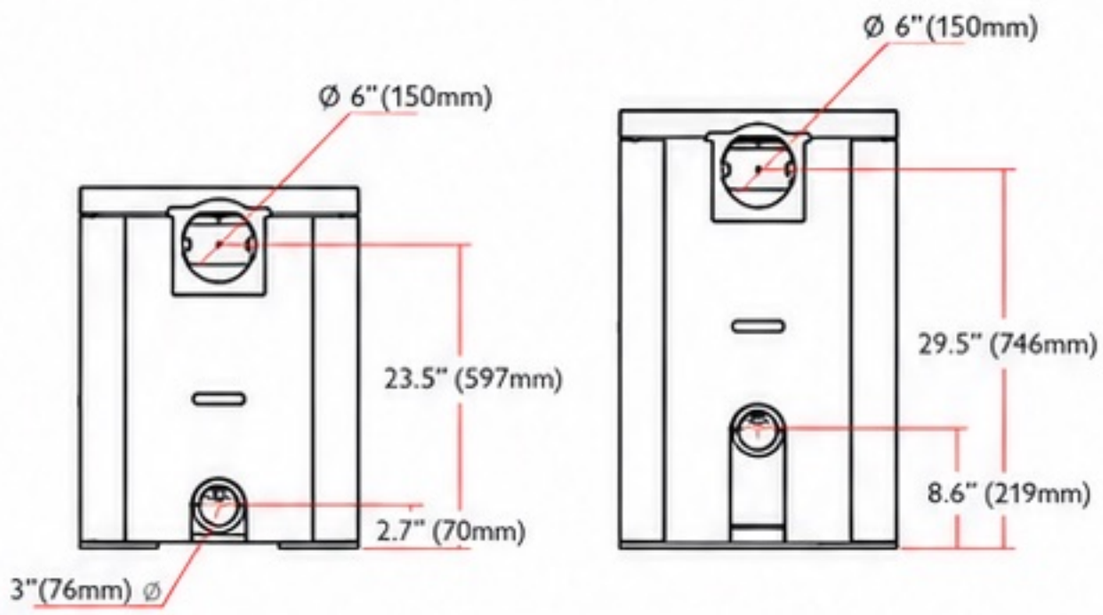

Charnwood's adjustable converting grate for clean, simple and highly effective de-ashing.

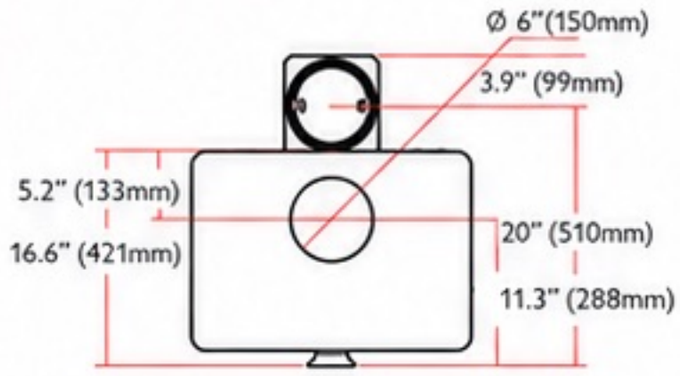

Load. Light. Relax

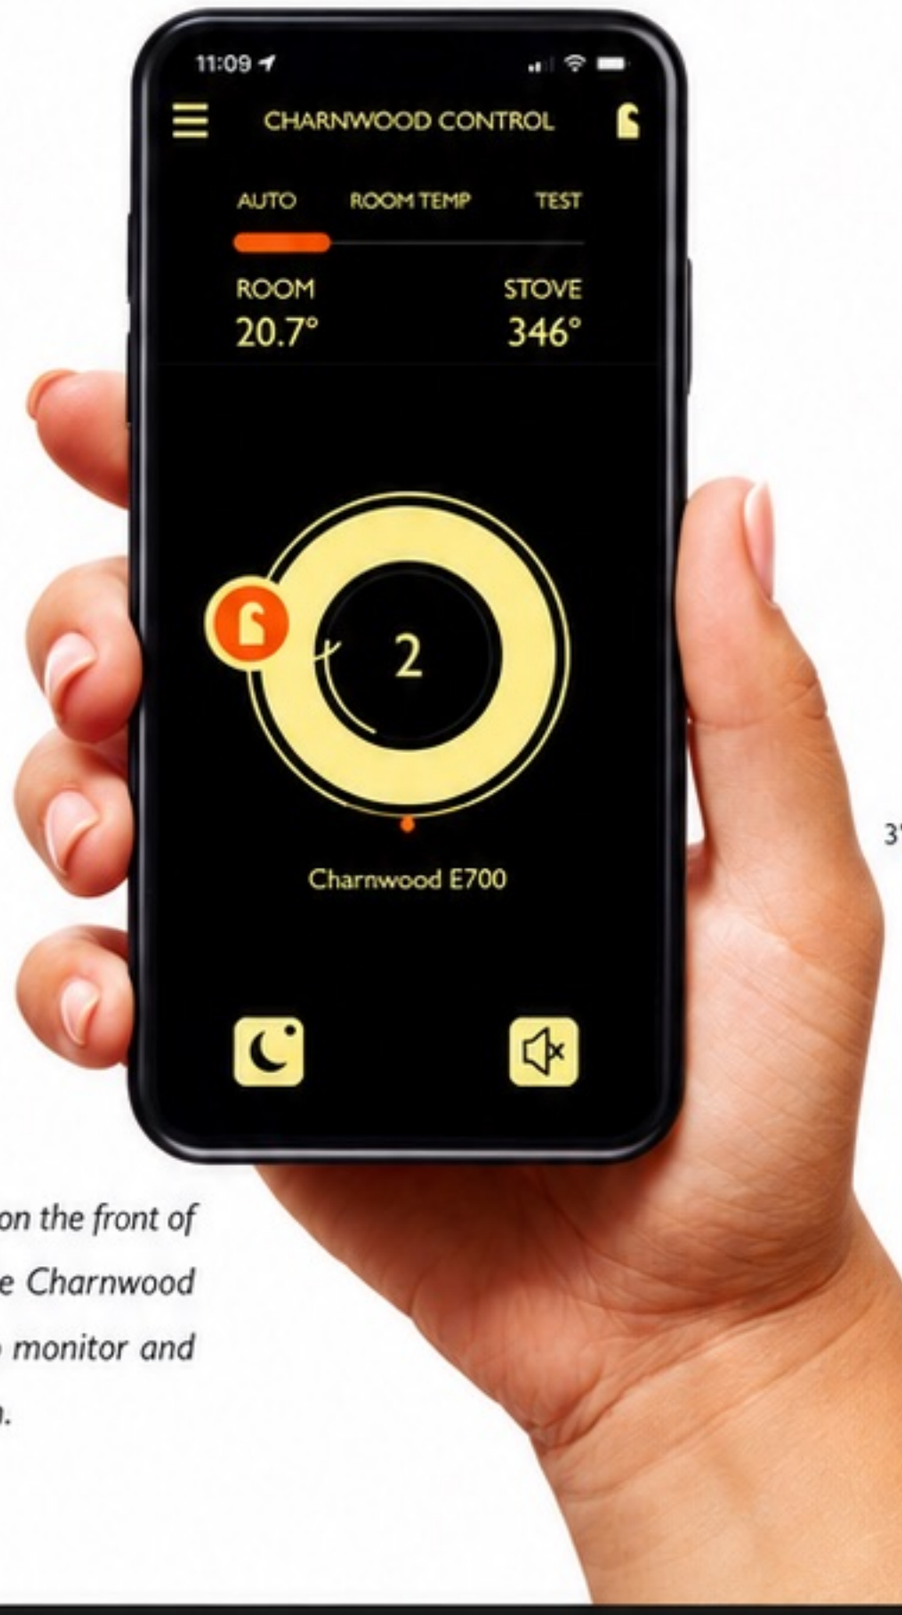

HEAT OUTPUT RANGE	11,100 - 31,900Btu/hr (3.3-9.3kW)
LOG LENGTH	16" (406mm) *max* 14" (355mm) *recommended*
WEIGHT	386lb (175kg) - Store Stand 342lb (155kg) - Low
MIN CLEARANCE	Side: 11" (279mm) *with insulated flue* Rear: 6" (152mm) *with insulated flue*
FLUE OUTLET	6" (150mm)
ENERGY EFFICIENCY	82% LHV / 77% HHV

Use the button on the front of the stove or the Charnwood Control App to monitor and adjust the burn.
