Work Experience

Webflow Developer

Oct 2022 - Present

QODERS Family

- Design responsive marketing, corporate, eCommerce, and SaaS websites in Figma for client projects from concept to final handoff;
- Built and launched 30+ Webflow templates and 25+ client websites, working independently from design through development;
- Collaborate with developers, handing off select projects for custom development while building and launching others directly in Webflow;
- Apply web animation and motion design to create engaging, interactive site elements;
- Maintain visual design quality across responsive breakpoints, typography, and brand consistency;
- Review web designs from other designers on the team.

Creative Director | Webflow Developer

Jan 2022 - Present

VIZ_ME architecture + design

- Independently designed, built, and maintain the company's corporate website in Webflow, owning the project end-to-end;
- Sourced, onboarded, and managed a QA tester and a developer to support website development and maintenance;
- Defined the company's visual style and brand guidelines;
- Produce video content for the company's social media channels;
- Direct and brief portfolio image production, assigning and overseeing tasks for visual content creation.

UI/UX Designer

Jul 2022 - Dec 2022

Safe Refuge

- As part of the team, developed the Safe Refuge app, landing page, and admin panel;
- Collaborated with Project Management, Front-end development, and Back-end development teams;
- Created wireframes, detailed hi-fi designs, and prototypes.

Education

Master's Degree, with Honours

Sept 2018 — Dec 2019

Lviv Polytechnic National University

Architecture and Urban Planning
