Slimaluma®

WEIGHT MANAGEMENT

Slimaluma®

Crush cravings for healthy weight support

Introducing Slimaluma®

Slimaluma® is a patented and proprietary extract made from Caralluma Fimbriata, a cactus-like plant with long-standing use as a food in India. The cactus was often eaten by local tribes-people to ward off hunger during long foraging trips in the forests. Saanroo® has developed a patented process for extracting the key constituents the plant, without chemically altering those constituents to develop an effective, safe, and easy-to-use ingredient.

Slimaluma® Benefits

Slimaluma® supports:

- Appetite suppression*
- Increased feelings of satiety*
- A reduction in waist circumference*

Why Slimaluma®?

- Botanical
- 1g
- FDA GRAS Notified (GRN 000500)
- Halal / Kosher
- Allergen free (Major 9)
- Vegan / Vegetarian
- Gluten free
- Formats: capsules, tablets, beverages, chocolate

Clinical Data

Appetite Suppression Study [500mg x 2]

Kuriyan R, et al., 2007. Effect of Caralluma Fimbriata extract on appetite, food intake and anthropometry in adult Indian men and women. Appetite, 48, 338–344.

After the 8 week study, we found that Slimaluma® significantly reduces waist circumference (reflective of intra abdominal fat) and effectively suppresses appetite when combined with a healthy diet and exercise.

Metabolic Health Study [500mg x 2]

Astell, Katie J., et al. A pilot study investigating the effect of Caralluma fimbriata extract on the risk factors of metabolic syndrome in overweight and obese subjects: a randomized controlled clinical trial

After the 12 week study, we found that Slimaluma® significantly reduces waist circumference, waist-to-hip ratio, declines palatability of test meals and reduces sodium intake.

Body Composition Study [500mg x 2]

Rao, A., Briskey, D., dos Reis, C. et al. The effect of an orally-dosed Caralluma Fimbriata extract on appetite control and body composition in overweight adults. Sci Rep 11, 6791 (2021). https://doi.org/10.1038/s41598-021-86108-2

After the 16 week study, we found that Slimaluma® significantly reduces caloric intake while maintaining satiety, leading to a reduction of waist and hip circumference.
