FIRMSTONE
FLOORING SPECIALISTS

CASE STUDY

PLANT ROOM: TRAFFICABLE MEMBRANE

BANKSTOWN CENTRAL

400SQM

BRIEF

- ✓ Provide waterproof membrane to protect offices below.
- ✓ Finish to be compliant with heavy vehicular movement.

WHY FIRMSTONE

Firmstone are specialists in quick cure trafficable membranes.

PROCESS

1. Vacuum grind and shot blast to remove contaminants and loose concrete.
2. Creation of ramps between levels with epoxy mortar.
3. Repair cracks and other damage.
4. Apply 4mm, 6 layer chemical resistant MMA elastomeric membrane.
5. Reinstate polyurethane jointing.
