FIRMSTONE
FLOORING SPECIALISTS

CASE STUDY

ICONIC SYDNEY WALKWAY

BARANGAROO DARLING HARBOUR

10,000SQM

BRIEF

Provide a slip resistant surface with exposed aggregate.

WHY FIRMSTONE

Projects of this size with pressure constraints demand one thing. A company that has experience and knowledge.

Firmstone has that ability, the skilled people, the right machinery and the technical skills.

We assess, advise, program and deliver as is expected of us.

Fully owned machinery; fully employed staff.

PROJECT REQUIREMENT

Provide a slip resistant surface with full aggregate exposure.

PROCESS

1. Diamond grind some 3mm to provide full aggregate exposure.
2. Shotblast to provide slip reducing surface compliant with legislation.

MACHINERY

Firmstone provided four, 3 phase diamond grinders and three shotblasters, including 2 tonne ride-on. All part of our in-house inventory.
