CASE STUDY

GRANOLITHIC POOL SURROUND

WENONA SCHOOL NORTH SYDNEY

ARCHITECTURAL TRAFFICABLE MEMBRANE

BRIEF

- ✓ Replace existing non-compliant polished concrete.
- ✓ Finish in crushed granite aggregate with compliant slip rating.
- ✓ Waterproof to protect rooms below.

WHY FIRMSTONE

Firmstone are specialists in quick cure trafficable membranes.

PROCESS

1. Vacuum grind to remove existing sealer.
2. Repair cracks and other damage.
3. Apply chemical resistant MMA elastomeric membrane.
4. Reinstate polyurethane jointing.
