

CTS10

4-in-1 Countertop RO Purifier

Purifying, Cooling, Sparkling, and Heating

Designed to Meet Every Need

Features

Advanced 5-Stage RO Filtration: Not only removes visible particles but also achieves up to 99.99% reduction of heavy metals (e.g., lead), bacteria, PFAS, microplastics, and organic contaminants.

Powerful Cooling System: Features an electronic cooling tank design for 45°F cold water-perfect for chilled drinks.

One-Touch Carbonation: Create crisp, sparkling water with one press.

Instant Heating: 1600W heating technology delivers hot water in just 3 seconds.

Enhanced UV Sterilization: Dual-flow UV technology ensure superior disinfection for safer drinking water.

Personalized Perfection: Customize temperature and cup size to create a tailored experience.

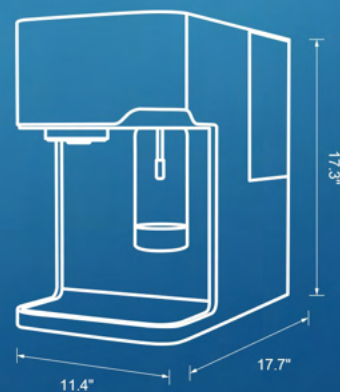

Product Parameters

Model

CTS10

Number of Filters	1
Filter Configuration	PP + Activated Carbon + RO Membrane
Rated Power	1700W
Heating Power	1600W
Cooling Power	60W
Purified Water Flow Rate	0.07gal/min
Cold Tank Volume	0.2gal
CO ₂ Gas Cylinder Volume	0.16gal
CO ₂ Gas Cylinder Interface Parameters	Tr21×4
Recommended Filter Replacement Cycle*	12 months
Filter Replacement Reminder	√
Net Weight	28.88lb
Applicable Feed Water Source	Municipal Tap Water
Applicable Feed Water Temperature	41°F-100°F

*Due to the varying water quality in each region and the different water consumption of users, the replacement time of filter may be different.

Water Options

Cold	Sparkling	Ambient	Hot	Extra Hot
