GET BEHIND THE BAR

Turn your gathering into a hands-on cocktail experience. Learn techniques from the Proof team, explore what goes into a balanced drink, and make something worth raising a glass to.

MAKE IT YOURS

Tell us about your group, the occasion, and the cocktails you love. Ask our team about class availability, the format, and a menu suited to your guests.

Classes last no more than one hour and take place before the bar opens. They can also be added to private events of certain sizes. Ask our team whether a class will suit your group.

Bring Proof to the party.

MOBILE BARTENDING

Hosting at your own location? Ask about bringing Proof bartenders and a custom cocktail experience to your gathering. Share your venue, guest count, and plans so the team can discuss what is possible.

Tell us what you have in mind.

Start with a few details. Our team will get back to you with pricing and options for your event.
