LIQUID FORMATS

Liquid products, made to your spec.

From a single shot to a full beverage line, we formulate and produce the liquid categories brands are launching now. If it's liquid, we can likely help.

Liquid supplements

- Liquid multivitamins and minerals
- Botanical and herbal liquids
- Collagen, beauty and kids' formulas

Wellness & energy shots

- Energy, focus and immunity support
- Recovery, sleep and relaxation
- Ginger and botanical shots

Functional & ready-to-drink beverages

- Hydration and electrolyte drinks
- Energy, relaxation and gut-health drinks
- Vitamin waters, RTD teas and tonics

Tinctures & drops

- Herbal tinctures and botanical extract drops
- Vitamin and mineral drops
- Sleep, calm and kids' drops

Syrups

- Elderberry and immune support syrups
- Kids' vitamin and sleep syrups
- Honey-based, botanical and flavor syrups

Concentrates

- Water enhancers and liquid drink mixes
- Electrolyte and functional concentrates
- Tea, botanical and flavor bases

HOW IT WORKS

A clear path from first call to first shipment.

STEP 01

Request a quote

Share your idea or formula. NDA first if you'd like.

STEP 02

Formulation & samples

We build or refine the formula and send bench samples for approval.

STEP 03

Pricing & planning

Components, packaging and a schedule you can plan a launch around.

STEP 04

Production

Batching, filling, labeling and quality checks on every lot.

STEP 05

Delivery

Finished goods ship to you, your 3PL or your retail partners.

CAPABILITIES

Everything between your idea and pallets of finished product.

Use one service or all of them. Because we formulate and bottle in the same building, nothing gets lost in a handoff.

FORMULATION

- Custom formulation
- Reformulation for taste, stability or cost
- Flavor development
- Bench samples before you commit
- Commercial batching instructions

PRODUCTION

- Batching & blending
- Hot fill and cold fill
- Pilot runs
- Full-scale production
- Batch records & lot traceability

PACKAGING & MORE

- Bottles, shot, dropper & PET bottles
- Component sourcing
- Label application & case packing
- Private label & label design
- Pallet storage

WORKING WITH US

Minimum order	10,000 units per SKU. Pilot runs available to test a formula before scaling up.
Lead time	Typically 12–16 weeks from approved formula, approved artwork and received components.
Fill processes	Hot fill and cold fill, both in-house. We recommend the right process for your formula.
Confidentiality	NDA signed before you share a formula.
Documentation	Batch records on every lot. Certificates of analysis available on request.
Storage	Finished-goods pallet storage at $50 per pallet per month.
Shipping	Finished goods ship from our Orem, Utah facility to you, your 3PL or retail partners anywhere in the US.

FDA REGISTERED FACILITY

GOOD MANUFACTURING PRACTICE GMP

Registered and compliant. Our Orem, Utah facility is FDA registered and we manufacture under Good Manufacturing Practices (GMP). You own your product's label and claims; we manufacture to the specifications you approve.

PREPARING FOR A QUOTE

What to send us for an accurate quote.

Rough numbers are fine. We'll fill in the gaps on a call, and the more you share up front, the faster we can price your product.

- Your product idea or existing formula
- Format: shot, bottle, dropper, syrup or concentrate
- Bottle size, type and closure
- Estimated order volume per SKU
- Key ingredients and target amounts
- Serving size and servings per container
- Flavor direction
- Target launch date and sales channels

FAQ

Can you manufacture my existing formula?

Yes. We'll turn it into commercial batching instructions, or improve it for taste, stability or cost. We sign an NDA before you share it.

Can you develop a product from just an idea?

Yes. Tell us the benefit, key ingredients and flavor direction. We develop the formula and send bench samples to taste before anything goes into production.

Should my product be hot filled or cold filled?

It depends on your formula, ingredients and packaging. We run both in-house and recommend the right process during formulation.

Who is responsible for label claims and compliance?

You own your product's label, claims and marketing, and we manufacture to the specifications you approve.

Let's get your product made.

Free, no-obligation quotes. We reply within 24 hours.
